Coaching Objectives

The coaching staff will focus on improvement on all levels.

Hockey skills.

Working as a team player.

Safe, fun, positive environment.

Prepare players for the next level.

Developing a life long love for hockey

Coach Philosophy:

Each player has to believe in their team and has to believe in themselves. Players (people in general) are often capable of far more than they believe. For this reason, a coach must help a player achieve more than the player believes is possible. If a player doesn't truly believe what they are trying to do is possible their practice will not be as effective or efficient, in the back of their mind they will think "what's the point". After belief, most important determination for success is work ethic. Hard work will overcome a lot of other shortcomings. Part of hard work is challenge yourself, and others. Achieving a skill should be just outside of the players reach, just close enough that they want to work harder to achieve it. Once the player can perform the skill consistently move on to a new challenge and continue to find new areas of the players game to improve. Failure leads to success. If you aren't failing, you aren't pushing yourself enough, and you aren't learning. You're too comfortable, you are afraid of embarrassing yourself and it's hurting your development. Every failure is an opportunity to learn and grow.

Tryout Status Notification and Team Selection

Players may be released after each tryout session including the first tryout.

At the start of tryouts, each player will be provided with a unique identifier number that will follow them throughout tryouts. The Midget BB team has its own webpage and the list of players “by number” who are invited to the next tryout will be posted by no later than 8:00 am the morning following each tryout.

A letter including instructions on where and when to find postings as well as the players’ identifier number will be provided at the registration table at each team’s first skate. If a player has tried out for other Ancaster teams already, they will use the same identifying number.

The team pages can be found under the “Tryout” tab/menu at www.ancastergirlshockey.ca

The rationale for this system is that we must take the time to review and discuss each player with our independent evaluators after each tryout session. This will take some time for us to process. Player offers may be made at any time during the tryout process. Players and parents would then be expected to sign a letter of acceptance to the team and provide the team with a **\$250 non-refundable deposit** that will be put in the bank to put towards team Rep fee payment.

Team Fundraising & Sponsors

We will do fundraising. We will be looking for sponsors. Please contact Coach Brian if you are interested in sponsoring our team.

Any questions or concerns please speak or contact me directly.
