

Leduc Baseball Association (LBA)
Suite 726, 101-5101 – 50th Avenue
Leduc, Alberta

Mosquito Representative “AA”

Representative “AA” Teams is designed for 10 & 11 year old players with above average ability, commitment and desire to play at higher levels of competition. The primary objective at this level will be for player development through fair play by all players on the team up to provincial round robins. Teams will generally consist of 11-12 players

Commitment:

The representative “AA” level is a 100% commitment and participation is required by all players, parents and Coaches to attend all practices, games and team events. If you cannot commit 100% then this may not be for you and you would be taking a spot from another individual that can. Typically the “AA” teams will practice 2 -3 times during the week which may include exhibition games and weekends generally will be for league games and tournament play. Some league games may be scheduled during the week depending on the distance teams need to travel. All Parents throughout the season are expected to volunteer their services to score keep, pitch count, helping support the team staff organize and run team events and hosting weekend tournaments.

Financial:

LBA initial player registration fees cover the basic expenses related to Baseball Alberta registration, insurance, basic equipment/jerseys umpires diamond fees etc., There is a \$200 level up fees for all players participating on one of the Representative “AA” teams. Each of the “AA” teams are required to create their own team budgets to cover expenses related to additional fees, travel, tournaments and any additional team apparel/equipment. The amount of fundraising required varies per team and will be discussed at the parents meeting.

Evaluations:

All players wishing to participate on a Representative AA team will be required to attend the evaluations that are generally scheduled in mid to late March of each year. Player evaluations will be based on the direct observation of their demonstrated skill, development potential, perceived dedication to the program/coaches and various other factors this way they are placed at the skill level that is most appropriate for them. Players must attend at least one evaluation in order to be considered to participate on an “AA” team.
