Referee Coordinator Responsibilities

- 1- A current list of referees will be provided to all individual team coordinators by the MMHA.
- 2- Utilize local referees as much as possible. We do not have to pay mileage for Macklin-based officials.
- 3- MMHA wishes to develop our own referees. Utilize them all equally. It does not benefit MMHA if the same referees are continually used while others do not get used at all. This practice will cause kids to quit officiating.
- 4- Schedule one referee and two linesmen whenever possible for all games regardless of the age category of the game. This encourages our young officials to officiate a game in the best possible situation and develops proper positioning, mentor ship and teamwork.
- 5- Referees should be two age categories higher than the game they are to officiate i.e. Bantam aged referee for Atom age game. Linesmen should be at least one age category higher than the game to be officiated.

****THINGS TO CONSIDER****

-Remember that referees are learning and will not be perfect. We need to be respectful and supportive of them.

-With the number of out of town ref this year please ensure that all the people that are paying refs are clear with filling out the paperwork.

#1 - Fill out game sheet.

-Fill in amounts that you are paying the ref with travel broke out.

#2 - Fill out the "Out Of Town Receipt with all the proper amounts

#3 - The out of town receipt it taken to the booth and the ref is paid.

-The out of town receipt goes into the booth cashbox.

Carrie Scherger will do up the nightly deposit and account for that money.

She then forwards the receipt on to me which I match up and staple to the initial game sheet.

That is the only way we can accurately track these costs and that Carrie can account for this money
