The parent or guardian creates an account using their own personal information. This includes creating a username and password for the account. This username and password will be required each time you access the Hockey Canada registration system. If you registered online last season, you will have created an account already. If you have not registered any participants in the past with this system, you will have to create an account.

The parent or guardian then clicks on "Register a Player". Note: You can only register one player at a time.

Only fill in the "Hockey ID" if you already know the participant's Hockey ID. If you do not know your hockey ID, fill in their FULL name (without middle names), date of birth, gender, and language and click on "Register".

The system then searches for your player and will show you the results of its search. When you see your player's name, click on it. If you don't see their name, make sure the spelling is correct. Your player's file at Hockey Canada is based on your previous registration. Some players have been registered as short form or nickname. ie. Robert, Rob, Robbie. If you cannot find your player, please contact the NOMHA registrar.

After clicking on your player's name, fill out the information required and then click "Next".

Choose the options your player requires. Make your choices and click "Next".

For families registering more than 2 players, family discounts are not available for on-line registration. You can use on-line registration for the first 2 players. Any additional players will have to the hard copy of the [Player Registration Form](#) and mail it in with payment.
