

**OMSA Registration Policy
Passed 10 January 2018**

Registration for the following season will be available after the fall AGM.

The registration deadline will be on or about January 31 for all athletes in U12 and older. After this date, registrations will be capped in each age division, and registration will be allowed only to the number of spaces available. This permits time for the association to hold evaluations and have teams in place in advance for the upcoming season.

The Board may also notify the membership of an early registration date in the fall. Such notification will be given by email at least 3 weeks in advance and will also be posted on the website. This will be intended for players that wish to try out for the top tiered team in each age division and will allow the association to hold outdoor evaluations in the fall for the following season.

After team formation, late registration will only be permitted if there is space on a team or as determined by the board.

Jamboree U8 and U10 will allow registrations until start of the season. Any late registrants will be placed on an appropriate team.

There will be NO tiering at U10 and younger.

There will be tiering for U12 and older

The actual dates for each season will be decided by the registrar and communicated to the membership at the fall AGM.

Fees are expected to be paid at the time of registration.
