

## SPKAC 2018/19 Tryout and Evaluation Process Overview

### **Introduction:**

The primary goal of the SPKAC Player Evaluations is to maintain an equitable and thorough process for assessing player abilities, skills, and placing players on to teams that will promote individual development and team success.

Player evaluation will be used to place players onto teams and the information obtained from these evaluations will be given to coaches so that they can see what the strengths and weaknesses of those players are. Coaches will be allotted the opportunity to make final decisions on their team selection and be prepared to justify the final roster to their respective Directors and Hockey Operations based on results from all evaluations and evaluators.

### **Player Evaluation Teams**

For the 2018 SPKAC Evaluations, Player Evaluation Teams will exist at each of the Midget, Female, Bantam, and PeeWee levels. Each Evaluation Team will consist of:

- Division Director (oversees the Division evaluations)
- Division Team Head Coaches (supported by their Assistant Coaches)
- Independent Evaluators in the Pee Wee division

It is important to note that all SPKAC Head Coaches and Independent Evaluators will be comprised of individuals possessing strong hockey backgrounds and extensive hockey experience.

### **Evaluation Session Structure:**

The Tryouts provide evaluation teams the opportunity to observe players in structured sessions.

### **Evaluation Objectives:**

- To provide a fair and impartial assessment of a players total hockey skills during the skills and scrimmage sessions.
- To ensure that players have a reasonable opportunity of being selected to a team appropriate to their skill level as determined during the on-ice evaluations.
- To provide coaches with the opportunity and flexibility to build a team based in part on their own coaching philosophy and knowledge of player skills and attitude as well as information from other evaluators.
- To provide uniformity and consistency in the evaluation process such that a player and parent expectations are consistent from year to year as players move through the various levels of the associations programs.
- To form teams to maintain balanced and competitive play where athletes can develop and participate equitably and have fun playing hockey during the season to provide feedback in order to develop players.

## SPKAC 2018/19 Tryout and Evaluation Process Overview

### PeeWee

Our tryout process will be as follows:

- We will be creating 4 groups. Each group will play 3 scrimmages.
- These 4 groups have been selected by the PeeWee Director with the objective to create 4 balanced groups based on the following factors:
  - number of defencemen
  - number of forwards
  - number of goalies
  - number of first and second year players
  - level played last season

**Please check the SPKAC website regularly for tryout session updates for tryout groups and times.**

- During the scrimmages, the players will be graded by independent evaluators as well as the two head coaches.
- To allow the coaches to have a focused look at all the goalies, a separate goalie session will be held. Shooters will be required to help during the goalie session and we are extending an invitation to all returning Kings Pee Wee AA skaters to come out and help. Shooters are not graded.
- Following the 3<sup>rd</sup> and final scrimmage, the SPKAC will conduct a first round of releases. Releases posted via the SPKAC website.
- The remaining players will be re-organized into two balanced teams. These two teams do not represent the final rosters, but only a mix of the remaining players. Each team will have a practice on and play one exhibition game.
- There will be a final head to head game between the Jets and the Steel Kings to facilitate parity. Some player movement **may** occur after this game, but no players will be released. All players will receive a call from one of the two coaches to confirm which team they will be playing on for the season.

If you have any questions regarding the tryout process please do not hesitate to call the Pee Wee Director, Jeff Jones - [jeff.jones@partner.epsb.ca](mailto:jeff.jones@partner.epsb.ca)

### Conclusion

## SPKAC 2018/19 Tryout and Evaluation Process Overview

The goal of the SPKAC Player Evaluation Process is to fairly evaluate players, and place them on the best team that matches their skill level, and ability in the fairest way possible, using many 'checks and balances'.

SPKAC recognizes that there is no perfect process, and that there will always be players and parents who will disagree and be upset with the decisions. This will always exist in the case of a Tiered/Rep system. We believe that our process is reasonable, fair and in the end, provides players the opportunity to play on a team that is matched to that players overall ability.
