

Outdoor 2015

U8 Boys TT Team 8 - Belcham

Nominated By: Teresa Fines

Please explain why you feel this team should be awarded the Team of the Week: This team not only tries hard during practice but also during the games. On Thursday's game last week, a player on the other team accidentally got hurt. The boys on the team stopped playing and all took a knee waiting for the injured players mom and coach to come check him out. Once it was determined that the player was okay, the team gave the ball to the opposing team to start play again. This team showed a valuable lesson in sportsmanship and should be rewarded as you don't see it very often.

U10 Boys Team 12 - Baker

Nominated By: Vera Milligan

Please explain why you feel this team should be awarded the Team of the Week: This group of boys has had a tough season so far with only one win almost half way through the season. That being said though- they are an enthusiastic group of boys encouraging each other and giving it their all. They are learning lots and improving and being the team of the week would be an amazing pick me up after a tough tournament this past weekend and season so far. I would love to see these guys be the team of the week and give them that extra encouragement at how well they are doing and there is lots of season left. Can't think of a more deserving bunch:)

U12 Boys Team 2 - Breum

Nominated By: Deana Breum

Please explain why you feel this team should be awarded the Team of the Week: I would like to nominate the Titans for their exceptional effort & team spirit. The start of the season was a rough one but the boys have shown up to practice & haven't given up. They have been rewarded with a few wins, & have enjoyed playing the game. There were multiple players who gave up birthday parties in order to support their teammates in the classic tournament. I couldn't be more proud of this team!

U6 Girls MW Team 2 - Marshall

Nominated By: Devon Marshall

Please explain why you feel this team should be awarded the Team of the Week: This group of U6 girls in just a matter of a couple of games built such a great team spirit and bond. From a special team "Green Tornado Cheer" to hanging out for a long time after the game because they don't want to leave each other; the U6 Green Tornadoes are why I want my daughter to experience outdoor soccer in Sherwood Park. The memories, the relationships, and the exercise. Each one of these girls have demonstrated such focus and joy for playing the game. They have improved so much and its such a pleasure seeing them use the skills they have learned during game time. Not to mention what a great, supportive group of parents too! They have communicated, participated and cheered this team on right from the get go! It makes coaching such an enjoyable experience! Way to go Green Tornadoes!
