### **IMPORTANT INFO – PLEASE READ**

Each team is guaranteed a total of three games - against teams in their pool.

The top team from each pool will advance on to the medal rounds thus totaling 3 teams. To determine the 4<sup>th</sup> team (WildCard), all second place teams will then be considered. The second place team with the best points for/against ratio will be determined as the 4<sup>th</sup> team (WildCard)

Ex. Team A takes their total goals scored (9) and divides it by the total number of goals scored against them (6).  $9 \text{ divided by } 6 = 1.6$ .

Team B takes their total goals scored (5) and divides it by the total number of goals scored against them (3).  $5 \text{ divided by } 3 = 1.66$

Therefore, Team B would win as their have the highest ratio.
