

Regional and Fun Friend Request Policy

Request Guidelines

Sibling Requests (Priority Consideration)

- Sibling requests are permitted and take priority over friend requests.
- Siblings may use their single request to request each other.
- Siblings do not receive an additional request beyond their siblings.
- All sibling requests remain subject to team balance and program needs.
- Sibling requests are only considered for players who are assessed to be placed on the same level of team (B, C or Stage 1 or Stage 2). Should a sibling be placed at a higher level, they can opt to play at a lower level with a sibling.

Friend Requests

- Players may request one (1) friend only.
- Requests must be mutual (both players must request each other).
- Group or chained requests are not permitted.
- Friend requests will be considered only after sibling requests and only where team balance allows.
- Friend requests are only considered for players who are assessed to be placed on the same level of team (B, C or Stage 1 or Stage 2). Should a friend be placed at a higher level, they can opt to play at a lower level with their friend.

Restrictions

- Players may not request a specific coach.
- Coaches may not request specific assistant coaches before tryouts or sort-outs are complete.
- Requests that negatively impact team balance will not be honoured.
