The quotient is to be determined in the following manner:

Goals for divided by Goals For + Goals Against

**Example... "For" = 10 goals. "Against" = 4 goals. Ratio =  $10/(10+4) = .714$**

NOTE: The higher number gains the higher position

4. If still tied, the team with the fewest goals against during full round robin play will advance.
5. If still tied, the team with the most goals during full round robin play with advance.
6. If still tied, coin flip.
7. In the event of three or more teams tied, head-to-head among the tied teams shall determine placement (only if all three teams played each other and placement is determined by wins/not points amongst the teams tied). If still tied, apply steps 3-6.
8. Note: once a tie is broken, we revert to step 1 to break further ties.
