

Welcome!

On behalf of the Edmonton Federation of Community Leagues Ringette Association executive and our Tournament Committee, we're thrilled to welcome you to our community and extend our best wishes to all teams participating in this year's Silver Ring Tournament. A special shout-out to the families and friends who've come out to cheer on the players—your support means so much!

We'd also like to express our sincere gratitude to our sponsors. Their generous contributions have played a vital role in bringing this event to life and helping offset the costs of hosting the tournament. Our dedicated committee and volunteers have spent countless hours preparing for this weekend, and their commitment and community spirit are what make this event possible.

Throughout the Silver Ring, we look forward to witnessing outstanding skill, spirited competition, and true teamwork—all in the name of fun and good sportsmanship.

There's lots to enjoy over the weekend, including exciting prizes and activities. Be sure to check out the tournament map for venue details, and feel free to ask any of our volunteers for tips on where to eat, sharpen skates, or shop—they're happy to help! The Tournament Committee is also available to assist you—just drop by the Tournament Office at Terwillegar Arena (near Rink C) if you have any questions or concerns.

We're excited for three days of great games, new connections, and memorable moments. Wishing all teams the very best—and we hope to welcome you back next year!

Injury Response Plan

There is always the potential for injury in all physical activities. Therefore, it is important to have an emergency action plan. The key to the emergency action plan is getting professional care to the athlete as quickly as possible.

DIAL 911

First Aid Kits: Lifeguards (in arenas with a pool on site), Arena Staff, Team Staff

When Injury Occurs

1. Take control and assess the situation.
2. Remember the basic first aid rule: Do not move the injured athlete. If the athlete cannot start a movement themselves, do not move the body part for them.
3. Tell bystanders to leave the athlete alone.
4. Leave the athlete's equipment in place.
5. Evaluate the injury. Once you have assessed the severity of the injury, decide whether further assistance is required. If an ambulance is required DIAL 911.
6. If an ambulance is not needed, decide on how to remove the injured athlete from the ice surface.
