ABOUT MATTHEW

Matthew Churchill was killed on the evening of March 28, 2005 by a hit-run-driver on Bauline Line in Portugal Cove. After his death, Matthew's parents initiated the Matthew R. Churchill Memorial Fund in order to provide a legacy and honour his memory through assisting others interested in continuing their education.

A Grade 9 student of Leary's Brook Junior High, Matthew made friends with everyone he met, was actively involved with hockey, an avid skateboarder and had a passion for guitar.

Although Matthew worked extremely hard in school, his academic achievements were overshadowed by a learning disability. Through the assistance of his parents, his dogged determination, and sheer hard work, he did succeed academically. He often talked about becoming a geologist like his dad, but in the final months before his death he was thinking of becoming a police officer.

Matthew played hockey for the Leary's Brook Junior High Eagles and also played house hockey in the Midget Division with the St. John's Minor Hockey Association where his dad Rod spent 15 years as a coach and Board Member with the Caps hockey association. Matthew had a deep love of the sport – not so much for winning games, but for the fun and friendship it brought. He enjoyed spending every weekend in the rink with his dad and his friends and was very much a regular fixture at Twin Rinks on the weekend.

Matthew's friends were very important to him. He spent a lot of time with not just one or two good friends but with a circle of about 20 close friends. Matthew was the one who brokered the peace during arguments, helped teach others how to play guitar or skateboard, was a role model for his younger cousins, and above all was the best son Rod and Desma could have ever asked for.

Matthew had a gift of lifting spirits and making people smile through his generosity and kindness and it is these traits that Matthew's parents want to honour by making available a post-secondary scholarship in his memory.
