

Hybrid Rules for AB Games and Zone Championships

Pitch Count

- 1) The maximum pitches one player can make, in one day, is 95.
- 2) If a player throws 76 or more pitches, in one day, three (3) calendar days of rest must be observed.
- 3) If a player throws 46-60 pitches, in one day, two (2) calendar days of rest must be observed.
- 4) If a player throws 31-45 pitches, in one day, one (1) calendar day of rest must be observed.
- 5) If a player throws 1-30 pitches, in one day, no (0) calendar day is required.

-Under the present AB Games and Zone Championship format, only clauses 4, and 5 relate to competition.

Note:

Under no circumstances shall a player pitch in three (3) consecutive days.

-A player cannot go back into the game as a catcher, unless he/she has thrown less than 30 pitches.

-If a player pitches one day, and then comes back and throws the next day, his/her total cannot exceed 95.

-Once a player has been removed from the position of pitcher, they are not allowed to assume the pitching position again, during the game. If the player's team plays a second game that same day, he or she will not be allowed to pitch in the next game.

Exception: If a pitcher reaches their threshold while facing a batter, they can continue to pitch until one of the following conditions occurs: a) batter reaches base; b) the batter is retired; c) the third out is made to complete the inning. The pitcher will only be required to observe the calendar day (s) of rest for the threshold he/she reached during that at-bat, provided that pitcher is removed or the game is completed before delivering a pitch to another batter.

- 2) If the tie still persists, the placement of teams will be dictated by the ratio of runs scored against per defensive innings for games between or among the original tied teams. (fractional basis)
- 3) If still tied, the placement of teams will be dictated by the ratio of runs scored per offensive inning, for games between or among the originally tied teams.

- 4) If the tie still continues, the team with the best defensive ratio of defensive runs per defensive innings, in all pool play, will place higher in the standings.
