Longbows & Recurves Handcrafted and Custom Built by: Joey Ryan

There are quite a few things to consider when ordering a custom built, long or recurve bow, as well as picking out the many options available.

Some things to consider are, do you want a recurve or a longbow? Next is, what is your exact draw length, what poundage of bow should you shoot? Are you left or right eye dominant? Do you shoot split finger or three fingers under? Where are you most comfortable to remain consistent with your anchor point.

If you are unsure as to some of these questions. Then you should take your time, come out to the store, shoot some bows and get the feel of it all. We will help you all the way. At Joe's Traditional we want you to be totally secure and confident with your decision before moving on to the next steps of picking out your options for a custom built bow.

To truly custom build a bow for you, we trace out your hand and watch how you hold your bow. This tells us how to shape the riser to fit your hand for comfort and to keep torquing of the bow to a minimum.

After that it's a simple matter of picking out what options you would like. We have samples of the many options available for the:

- Limbs
- Limbs Tips
- Riser wood
- Overlays
- Accent strips
- Thumb Rest

These options are a personal choice that we will certainly help you with if you want.

Joe finishes the bow with a very durable 2 part epoxy and under the finish we put the information of the bow. Like draw length, poundage, date, your name and whatever information that you would like permanently sealed on the bow.

Joey's bows carry 1 full year warranty against any defects in workmanship and after that at Joey's discretion. If there are any problems with the bow, we will do our best to make things right to everyone's satisfaction.

Joe's Traditional

Joey Ryan, owner of Joe's Traditional is a avid hunter, trapper and outdoor enthusiast. Joey has pursued these passions around Blue Ridge Alberta area all his life. Over these years he has developed strong ethical practices in the taking of fish and game and the use of our natural resources. His ethics and love for the outdoors are simply absorbed by all that know him. Joey started using traditional equipment over a decade ago. He has found the challenge and fulfillment to be second to none.

After much study and research on the longbow and recurve. Joey has come out with his own design of bows.

Joey's bows have been tested by himself and by numerous others extensively. Joey's craftsmanship is incredible and certainly shows his passion and love for these bows in every detail.

Joey welcomes anyone to have a look and try out one of his bows for themselves and if he or she wants. They can choose from many different options available.

Hunting and targeting with traditional equipment presents it's own unique set of challenges . The rewards are fulfillment and a strong sense of accomplishments that can't be beat.

After searching, shopping and trying out many different products. Joey saw a real need for a traditional specialty store. One where only traditional archery supplies are tested and sold.

So at Joe's Traditional we sell only what works with traditional archery and nothing else. We have everything that you may need, plus the knowledge and expertise to get you started . We will also answer any questions you may have.
