These past couple of months have been truly surreal and something that many of us have never experienced before. With that in mind, Baseball Sask is continuing to offer our members programming to enhance their baseball knowledge as well as allow them the ability to receive NCCP certification.

With social distancing & isolation in mind, Baseball Sask has been working hard at adapting programming to service members, and Coach Training is no exception. Still wanting to meet the needs of associations & their coaches, we have found a way to offer the same NCCP training. Rather than in person clinics during this time, the same training will be facilitated ONLINE. We have trained 6 Saskatchewan Coach Developers to facilitate this training on-line. We are confident that coaches will gain the same knowledge & training as in person, & of course, the same credit will be granted.

Participation takes place in a live, Adobe Connect online classroom setting using a home computer or laptop. There will be 15-20 coaches per four-hour session who can break into discussion rooms of 3-5 coaches. Online clinics hosted by Baseball Sask are open to all coaches throughout Saskatchewan and the cost \$30 for Initiation and \$50 for all other clinic. Final instructions will be sent to registered coaches leading up to the online event.

The first round of the 4 Regional & 2 Provincial Clinics offered online are now scheduled. Clinics are first come first serve & close at 20 coaches, so, register today.
