

BNB Provincial Championship

Tie Breaking Procedure

As per the BNB Provincial Championship Tournament Guide:

B-9 Tie Breaking Procedure

Should ties occur, division standings will be decided according to the following priorities:

- 1) In the event two teams have the same number of points in the placings (based on win/loss records), the classification will be established taking into account only the result of the game between the two teams involved.
- 2) If more than two teams have equal points in the placings (based on win/loss records), a second classification will be established taking into account only the results of the games between the teams involved.
- 3) If the situation is not resolved and teams have equal points in the placings after the second classification, then "goal average" - taking into account only the results of the games between the teams involved - will be used to determine the classification.
- 4). If it is not finally resolved, the classification will be determined by "goal average", taking into account all the results of the games from the group in question.

NOTE: "Goal average" = points for, divided by points against. The highest quotient is the winner.
