

## **2017-2018 Female Directors Report**

This year the female division consisted of a midget AA team together with the novice and atom program.

For the midget team we again worked together with Turtleford and area, having 1 practice in Turtleford and one in North Battleford each week. They played strong all year. They lost a hard fought battle in their first round of playoffs. Many of these fine young ladies will be trying out for the Midget AAA team.

Our younger players in novice and atom, including those from outside the Battlefords, were able to play together through the program run by Mandy Lehman. An all female tournament was held in March. The tournament was well attended with 12 teams in all.

For next year we are working towards having a team at every age level. I am working on finding partners to make this work. There is strong support for the development of female hockey in our association.

Patricia Meiklejohn  
Female Hockey Director
