PREFACE/FORWARD

CANADIAN BROOMBALL FEDERATION

Message from the Board of Directors

The rules which are contained in this book are the only rules which are to be used in the playing of Broomball under the jurisdiction of the Canadian Broomball Federation. The rules are written with the intent to provide reasonable safety, to create an atmosphere of sportsmanship, fair play and to provide skill development.

It is understandable that in a country of the extent of Canada, a uniform interpretation of the rules may prove somewhat difficult. That, however, is the goal to which we must aim, and if the rules are strictly adhered to in all parts of Canada, it should not be hard to come near to achieving that goal.

If the referee has any difficulty in the interpretation of any rule, he should consult with the person or persons in his Provincial/Territorial Association who have been designated to settle matters of this kind. If such persons cannot give a satisfactory interpretation, they in turn should contact the C.B.F. Referee-in-Chief.

These rules shall assure strong competitors their right to pursue excellence, beginners their right to be initiated in complete safety, recreational players their right to a relaxed atmosphere and all participants their right to surpass themselves.

Article 1 **THE RINK**

The rink shall include a viewing area and more particularly an ice surface, team benches, penalty benches, dressing rooms, signal and timing devices, lighting, complete hygienic installations and a first aid room.

Article 2 **THE ICE SURFACE**

The game of BROOMBALL is played on an ice surface. This surface must be shiny and free from snow particles. It must be protected from snowfall accumulation during play. The ice surface must be uniformly redone, at least once every six consecutive hours of play. If a wet film covers the ice surface, play must be interrupted at the end of the game, and the surface must be redone before the beginning of the next game or practice. A period of at least 5 minutes must be allowed before walking on the ice surface after all work required to redo the ice surface is finished.

Article 3 **DIMENSIONS OF THE ICE SURFACE**

- a) As nearly as possible, the dimensions of the ice surface shall be 60 metres in length by 25 metres in width. The corners shall form an arc whose radius shall be as near as possible to 8.5 metres.
- b) The ice surface shall be enclosed by a fence or wall, known as the BOARDS, which may be constructed of wood, plastic or any other material approved by the Federation. Measured from the surface of the ice, the boards shall be at least 1 metre in height, while not exceeding 1.2 metres in height. The inner surface of these boards shall be, if possible, painted white and shall be free from any object or obstruction that may cause injury to the players.

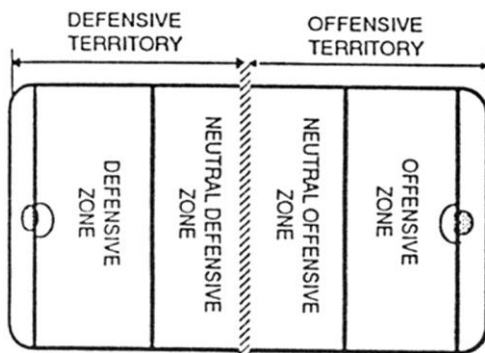

NOTE: Measurements in feet and inches are:

- a) 60 metres = 196 ft. 10 in.
25 metres = 82 ft.
8.5 metres = 27 ft. 11 in.
- b) 1 metre = 3 ft. 3 in.
1.2 metres = 3 ft. 11 in.
(Metric conversion based on: 1 in. = 2.54 cm)

Article 4

DIVISION OF THE ICE SURFACE

- a) 3 metres from each end of the ice surface, a red line shall be painted on the ice, 5 centimetres in width, parallel to the end boards and continuing onto the side boards. This line extending across the ice surface shall be called the **GOAL LINE**. On ice surfaces exceeding 60 metres in length, the goal line may be drawn 4.5 metres from the end boards of the ice surface.
- b) A red line of 30 centimetres in width shall be drawn at the centre of the ice surface, parallel to the end boards and continuing to the top of the boards. This shall be called the **CENTRE RED LINE**.
- c) This centre line shall divide the playing surface into two (2) territories. The part of the ice surface where the goal is situated shall be called the **DEFENSIVE TERRITORY** of the team defending this goal; the half furthest from the defended goal shall be called the **OFFENSIVE TERRITORY**.
- d) On all ice surfaces of 60 metres or more in length, 2 blue lines shall be painted on the ice, 30 centimetres in width, parallel to the goal line, across the width of the ice surface and continuing to the top of each of the side boards. On ice surfaces of less than 60 metres in length, these blue lines shall divide the ice surface between the goal lines into 3 equal parts.

- e) The blue line in the defensive territory divides this territory into 2 zones. From the end boards to the blue line, this area shall be called the **DEFENSIVE ZONE**; from the blue line to the red central line, the area shall be called the **NEUTRAL DEFENSIVE ZONE**.
- f) The blue line in the offensive territory divides this territory into 2 zones. From the end boards to the blue line, the area shall be called the **OFFENSIVE ZONE**; from the blue line to the red central line the area shall be called the **NEUTRAL OFFENSIVE ZONE**.

- g) The red centre line shall be considered as being part of the zone where play is occurring. The blue line shall be considered as being part of the zone where the play is occurring.

30 centimetres = 12 in.

Article 5 CENTRE ICE SPOT AND CIRCLE

A circular blue spot of 30 centimetres in diameters shall be painted in the exact centre of the ice surface. 4.5 metres from this spot shall be painted, also in blue, a circular line of 5 centimetres in width.

In the end zones, on each side of the face-off spot, and separated from each other by a distance of 1.8 metres, two (2) red lines of 7.5 centimetres in width and 90 centimetres in length shall be drawn parallel to the goal lines. From the centre of each of these lines, and perpendicular to them, another line of 7.5 centimetres in width and 90 centimetres in length shall be drawn. (This should result in 2 drawings in the form of a " T " on either side of the face-off spots.)

- b) The placement of the face-off spots shall be determined as follows: two (2) spots shall be marked at a distance of 6.6 metres on either side of an imaginary line extending from the centre of one goal to another, along a secondary imaginary line extending across the width of the ice at a distance of 6 metres from the goal line, parallel to which it runs. Each of these points shall be the centre of the face-off spots and circles. For ice surfaces of less than 22.5 metres in width, the face-off circles shall be reduced so as to not overlap each other. A minimum distance of 60 centimetres shall always be kept between the outer edge of the circle and the side board.

- 2) To oblige both teams to play within the rules of the game.
- 3) To eliminate from the playing area any individual who refuses to comply with the rules.

Definition: An expulsion from the ice for a given period of time, thus constituting a sanction for a given infraction.

- b) Time of imposition: Penalties may be awarded at any time.

c) Formalities:

DOUBLE OR MULTIPLE TIE-BREAKING SYSTEM

Spirit: To break the equality as soon as possible based on the HIGHEST criteria of the competition.

If there still exists a tie in the standings after having two points for a win and 1 point for a tie (where applicable), the following procedures shall be taken to break this equality.

Note:

In the case of a multi-team tie, if after the application of the tie breaking procedure, in the order listed, a single team is determined to have a “highest standing”, that team shall be deemed to have the highest ranking not yet assigned and all remaining teams shall return to the first tie breaking procedure to break the tie between remaining teams.

If after the application of the tie breaking procedure, in the order listed, all but one single team is determined to have a “highest standing”, the team not having “highest standing” shall be deemed to have the lowest ranking not yet assigned and all remaining teams shall return to the first tie breaking procedure to break the tie between remaining teams.

Procedure 1

The team that has the most points based on two points for a win and 1 point for a tie, (where applicable) considering games between the teams implicated in the tie, shall receive the higher standing. See APPENDIX E, EXAMPLE #1.

Procedure 2

If equality persists, the team that has the greater difference in goals for and against, considering games between teams implicated in the tie shall receive the higher standing. See APPENDIX E, EXAMPLE #2.

Procedure 3

If equality persists, the team that has **most** points, based on two points for a win and 1 point for tie (where applicable), between teams implicated in the equality, in comparison with the highest team in the standing, shall receive the higher standing. If equality still persists, the same shall be made with the second place team in the standings, and so on. See APPENDIX E, EXAMPLE #3.

Procedure 4

If equality remains after applying procedure 3, a comparison of difference in goals for and against, between teams implicated in the equality, and considering the highest team in the standings, shall receive the higher standing. If equality still persists, the same comparison shall be made with the second place team in the standings, and so on, if necessary. See APPENDIX E, EXAMPLE #4 and #5.

Procedure 5

If equality remains, an 8 minute period shall be imposed on the teams involved in order to achieve a final standing. Teams play 3 vs 3 plus goalie. If equality still persists after 8 minutes, 18 minute sudden death period(s) shall be imposed until a winner is declared. See APPENDIX E, EXAMPLE #6 and #7.

Procedure 6

If a multi-team tie persists, the team that has scored the fastest goal, considering all the games played during procedure 5, shall receive the higher standing. See APPENDIX E, EXAMPLE #8.

APPENDIX D

CROSS OVER GAMES – TIE BREAKERS

In the event that an incomplete box results in cross over games at Nationals, the following criteria will be used for teams being tied after round robin play.

1. If equality of two teams within their own box, then head to head results shall determine their standing.
2. If equality of three teams within their own box, head to head results amongst the three tied teams shall determine their placing. If one team has beaten the other two, then they shall receive the higher standing.
3. If all three beat each other, but one team earned more points within in their own box, they shall receive the higher standing.
4. If equality of three teams and the above scenario is not in effect then the best plus/minus amongst the three teams within their own games shall determine their standing.
5. If equality still remains, then the best record against the highest ranked team in their box shall receive the higher standing. If equality still persists, then the best record against the second place team in the box shall determine the higher standing, and so on.
6. If equality still remains, the best overall plus/minus record from all games played in the round robin including cross over games shall receive the higher standing.
7. If equality still remains, then a set of mini games will be played to determine the standings.
