Out-of-Province Pick-Up Criteria

Vision: To improve the attendance and participation of all Provinces and Territories at the Canadian National Broomball Championships in Juvenile and Senior categories by creating a criteria that will allow Provinces and Territories to assist each other in completing rosters for competition at these levels where required.

Spirit: The spirit of adding players from one Province/Territory to other Province/Territories teams is meant to allow members with low enrollment numbers to participate in National Competition and is not meant to be used strictly to increase a member's competitive advantage.

Goals: To assist Provinces & Territories in attending National events by granting the ability to complement their team roster with out of province players.

Objectives: To establish criteria that will be fair and beneficial to all Provinces & Territories and will be in the best interest for the sport of Broomball in Canada.

- Provinces & Territories must apply to the CBF to be eligible to pick up players outside of their Province or Territory each year.
- This application must be accompanied with the rational & justification to why they must pick up players outside of their Province or Territory.
- A maximum of five (5) players can be picked up by a Province/Territory to a maximum of 18 players on the roster. Players being picked up must not have played on a team that has qualified for that same Juvenile or Senior Nationals. Juvenile-aged players are eligible to play in either the Men's/Women's division or the Mixed Division. Juveniles participating in the Senior category must be a minimum of 18 years of age before the event takes place in order to be eligible.
- All out of Province or Territory pick-up players must be subject to the approval of their own Province or Territory.
- Hosting Province or Territories can pick up players from other Provinces or Territories to fill a second team if they are not able to fill their roster from within their own Province/Territory.

- Players from a Province or Territory who are asked to be picked up by a team in their own Province & Territory and who have declined will be ineligible to be picked up by other Provinces & Territories. If a player(s) is found guilty of the above guideline, they will be suspended from playing in the Championship.
- The deadline to submit preliminary rosters is March 1st of the current season.
- The following process will be followed with all out-of-province requests:
 1. The requesting province/territory applies to the CBF with their application with their current roster by March 1.
 2. The CBF passes along the application to the province(s)/territory(ies) that pick-ups are being requested from. The requested provincial/territorial association will confirm the pick-up(s) by March 15.
 3. The requested pick-up province(s)/territory(ies) will send their approvals to the CBF.
 4. The CBF Board of Directors will review each application along with an up-to-date team roster to verify that the spirit and criteria have been met. Once the CBF Board of Directors approves the pick-up(s), the team's roster will be frozen. No further roster additions will be allowed. Exceptions will be considered with injuries supported by a medical professional's note.
 5. The CBF will provide the requesting province/territory with the formal approval, who can then inform the requested pick-up player(s).

Note: Any application received after the deadline may be considered at the discretion of the Board.

- This policy will be reviewed at the end of each season.
