Subject:
Goalie Registration and Discount Policy

Passed by RAB Executive: June 23/2022

POLICY:

To encourage full time goalies at U12 - U19 within the Ringette Association of Burlington, a discount for Regional and Provincial goalies will be provided based on the requirements noted below. U10 players will take turns playing goalie and those who show interest in the position will be sent on goalie training.

All requirements must be met to qualify:

Regional (U12-U19): - Play for free less \$100 insurance fee

- All players who wish to play goalie full time will be required to pay the full registration less a \$300 goalie discount. The remainder of the registration cost will be refunded less \$100 Insurance fee at the end of the year after they have completed the whole season in the goalie position
- If two players wish to play goalie 50% of the time they will each qualify for a 50% discount which will be refunded at the end of the year.
- Equipment will be provided to all regional goalies.
- To qualify for discount, RAB must be the first play priority, which means that RAB games take priority over any other association.
- A goalie must play 80% of the games to equal a whole season and qualify for the discount

Open Team:

- A player who commits to playing full time goalie for the entire year, and has all their own equipment, will qualify for the discount of \$300.

Provincial:

- To help with the extra cost of equipment, a player who commits to playing full time goalie for the entire year, and has all their own equipment, will qualify for the discount of \$300.
- To qualify for discount, RAB must be the first play priority, which means that RAB games take priority over any other association.

OTHER NOTES:

- The U8 division is not eligible.
- a team loses a goalie mid season and a player on the team decides to take over the spot, the coach could request a percentage discount for that player. Any approved discount will be applied at the end of the year.
