

2022 Canada Summer Games Box Lacrosse Technical Package

Technical Packages are a critical part of the Canada Games. They guide the selection of athletes by prescribing the age and eligibility requirements, assist Host Societies by detailing competition formats and scoring procedures, assist provincial/territorial mission team (P/T Team) Chefs de Mission in verifying eligibility, identify the maximum number of participants permitted, advance coaching certification by stating minimum requirements and generally contribute to athlete development by identifying each National Sport Organization's (NSO) version of athletes in the "Train to Compete" phase of its Long Term Athlete Development Framework (LTAD), or other suitable phase of the framework as justified by the NSO, discussed with the LTAD expert group, and approved by the Canada Games Council (CGC) Sport Committee.

Every Games' technical representative, coach, manager, sport leader and mission staff has an obligation to read and understand every aspect of the Technical Package. Failure to do so could cost an athlete their eligibility for the Games or could affect final standings or the conduct of the competition. If someone does not understand an aspect of a Technical Package, they are to seek clarification from the CGC Sport Committee through their Chef de Mission or NSO.

Technical Packages are developed 36 to 24 months prior to Games primarily by NSOs, following the Principles that Govern Technical Packages, guidelines and requirements of the CGC. As the overall governing body of the Games, the CGC has the ultimate authority over Technical Packages, but this authority is exercised only with the knowledge and understanding of the concerned NSO. Generally, Technical Packages are developed by sport, but in certain cases may be developed by discipline.

If an individual wishes to seek clarification or initiate a change to a Technical Package leading up to a Games, the request should be first directed to the NSO or the Chef de Mission. The NSO or Chef de Mission will evaluate the merits of the request and will, if it has merit, submit the requested change or clarification to the CGC's Sport Department for consideration. The NSO or Chef de Mission will provide the rationale for the request. Changes to age groups, eligibility requirements, team sizes or staff complements will not be considered within 36 months of the Games. Additions or changes to events/competition formats that result in a significant cost increase to the Host Society will not be considered within 24 months of the Games, unless approved by the CGC and the Host Society. Substantive changes to events or competition formats will not be considered within 18 months of the Games, unless approved by all participating Provincial/Territorial Sport Organizations (P/TSO) and the CGC. Minor corrections will be considered at almost any time, but will be increasingly difficult to achieve within six [6] months of the Games. These time frames reinforce the importance of complete understanding of the Technical Package by Games' stakeholders early.

For more details, the graphic below shows the coach education pathway to be Trained/Certified at the Competition Development level.

APPENDIX 2 - PERFORMANCE GUIDELINES

The following Performance Guidelines have been established by Lacrosse Canada, at the request of the CGC and the Federal-Provincial/Territorial Sport Committee (FPTSC), to reflect the expected training and/or performance parameters of a typical Canada Games athlete in the Learning to Compete phase of LTAD. These Performance Guidelines have been developed as a tool for P/T teams to use at their discretion in the training and selection of their Canada Games teams. These Guidelines are not required selection criteria.

Lacrosse Canada recognizes regional differences on how athletes are selected for the Canada Games. Below are some guidelines for provinces/territories to follow as to the type of athletes accessing the Canada Games.

1. Provincial/Territorial Teams at Canada Games should include the best athletes within the chosen stage of development or age group. In the case of lacrosse, the Learn to Compete Stage of Development has been identified as the ideal stage of development for the Canada Games.
2. Selected pool of athletes should all have the opportunity to try out for the provincial/territorial Canada Games Team. No club team is entering the Canada Games.
3. Potential athletes should be athletes involved in elite lacrosse in their respective provinces/territories in the 17U division. Athletes born January 1, 2005 and later (plus overage athletes as per section 3).
4. Potential athletes should be training on an annual basis as part of an elite program, school-based program or any other high-performance environment.
5. Potential athletes should be engaged in a more serious environment with the technical, tactical, physical and mental aspects of the game being considered on an annual basis and with an off season training protocol.
