

CMHA Goaltenders Policy & Evaluation Process

Novice

- At the Novice level, goaltending is not evaluated.
- It is the policy of the CMHA that each Novice player shall have the opportunity to play the goaltender position. This opportunity will be provided on a regular rotation with each team member taking his or her turn in the rotation. No player shall be forced to participate as a goaltender.
- CMHA recognizes the importance of the goaltender position. Coaches at the Novice level have the responsibility to introduce the position to each player in a manner consistent with the goals of the CMHA. This is a critical step in the development of goaltenders in the association.

Atom, Peewee, Bantam and Midget REP

- Each player wishing to play the goaltender position must declare as a goaltender prior to the start of the evaluation process. Players electing as goaltenders will be evaluated at that position and placed on teams according to their ranking versus the other goaltenders.
- CMHA will work to ensure that each REP team will have 2 goaltenders assigned. This will be dependent on registration totals. It is expected that each goaltender will have the opportunity to play in 50% of the team's games, including exhibition and tournaments. With the best efforts of the coaching staff, this opportunity will be provided on a rotating basis.
- Players electing as goaltenders will not be eligible to play as skaters.

Atom, Peewee, Bantam and Midget RHL

- Each player wishing to play the goaltender position must declare as a goaltender prior to the start of the evaluation process. Players electing as goaltenders will be evaluated at that position and placed on teams according to their ranking versus the other goaltenders.
- CMHA will work to ensure that each RHL team will have a minimum of 1 goaltender assigned. This will be dependent on registration totals. If it is possible to have 2 goaltenders on each team, then each will have the opportunity to play in 50% of the team's games, including exhibition and tournaments. With the best efforts of the coaching staff, this opportunity will be provided on a rotating basis.

Evaluation Process

Technicals

- Goaltender evaluation technicals will be completed during a 2 day "Evaluation Weekend" according to the schedule provided on CMHA website for Goalie Evals. The technical evaluation portion will be completed first on those consecutive days in conjunction with the small area games (SAG).
- The execution portion of the technicals consisting of running of drills and rotation of goalies through those drills will be executed by a professional third party who specializes in goaltender training and development. This third party will not be involved in the actual evaluation scoring of the goaltenders.
- The evaluation scoring will be performed by a team of 4 third party evaluators, all who specialize in goaltender training and development. These 4 individuals shall not be from the same goaltending company in order to keep evaluations unbiased.
- At the discretion of the Board, each year CMHA will solicit proposals from qualified parties wishing to conduct CMHA goaltender evaluations. These successful parties will be responsible, with oversight from the Goalie Director, for ranking goaltenders against their peers.
- Each player in the Atom, Pee Wee, Bantam and Midget age groups who declares as a goaltender will attend the technical evaluation sessions. Goaltenders not attending the sessions will receive a score of zero in their technical evaluation score. These technical sessions will account for 45% of the total evaluation score for each REP goaltender and 50% for each RHL/Female goaltender.

Goaltenders will be rotated through each team in order to perform unity in the evaluation process.
