

RHL Game Reporting Process

All home teams are required to input the score from their games into goaline and scan game sheets to send in to division governor. Game scores should be updated and games sheets sent to governor no later than the Monday evening immediately following games. **Any referee write ups need to be sent to governor and zone discipline immediately following games along with the game sheet. The manager for the team with the write up needs to also be included in the email so they are aware of the ruling from Hockey Alberta.**
