## **Calgary United Soccer Association Membership**

Today the sports world continues to see unprecedented changes as professional leagues around the world are suspending seasons as steps are made to contain the spread of COVID-19.

[Alberta Soccer Association](#), following an internal risk analysis has made the decision to postpone the remaining 2020 Indoor Provincial Championships given teams and officials would be travelling throughout the province.

CUSA has not cancelled league play at this time. Current updates from [Alberta Health Services](#) are not recommending this step to be taken. Teams however, need to make their own decision if they wish to play the remaining games in the season. Should you and your team wish not to participate in your remaining league games we ask you notify the league, in writing, of your decision to enable us to communicate that decision to your opponents, the officials and the facility.

A decision on the status of the 2020 Indoor Nations Cup will be announced on Monday, March 16<sup>th</sup>.

We encourage our membership to make decisions that they are comfortable with and follow the recommendations from the various health agencies on how to remain safe and healthy. We will continue to provide updates on our [website](#) as we receive them.
