

Policy - Player Registration

- A)** All players must register at the prescribed times at the branch in which they live as established by the board and must complete the necessary registration forms. Non-registered players will not be allowed to participate in either games or practices. All players must register for the age division in which they belong.

- B)** The association reserves the right to move players up to the next age group, with parental consent, as seen fit. Parents wishing to move players up shall make a request in writing explaining the reasons to the board. The board will then consider the request and make a decision. These players will have all the rights of normally registered players in that age bracket.

- C)** Any player who cannot be accommodated in an age group due to registration will be given the choice of playing up a division or being refunded their registration.
