

Policy-Playing Time

- A) In the premier division, every youth must play in every league and tournament game and every attempt should be made by the coach for equal playing time, as long as the youth has been a good standing member of the team(i.e. attended all practices and games regularly). In the playoffs it is the discretion of the coach whether a player plays or not.

- B) In the first division, equal playing time is a must in all regard this is a developmental division and results must be de-emphasized. First Division teams should encourage players to play up on premier teams, whether short term or long term, if called upon to do so as this furthers the development of the player.
