

Scoring Games Online (RAMP)

Section 8a

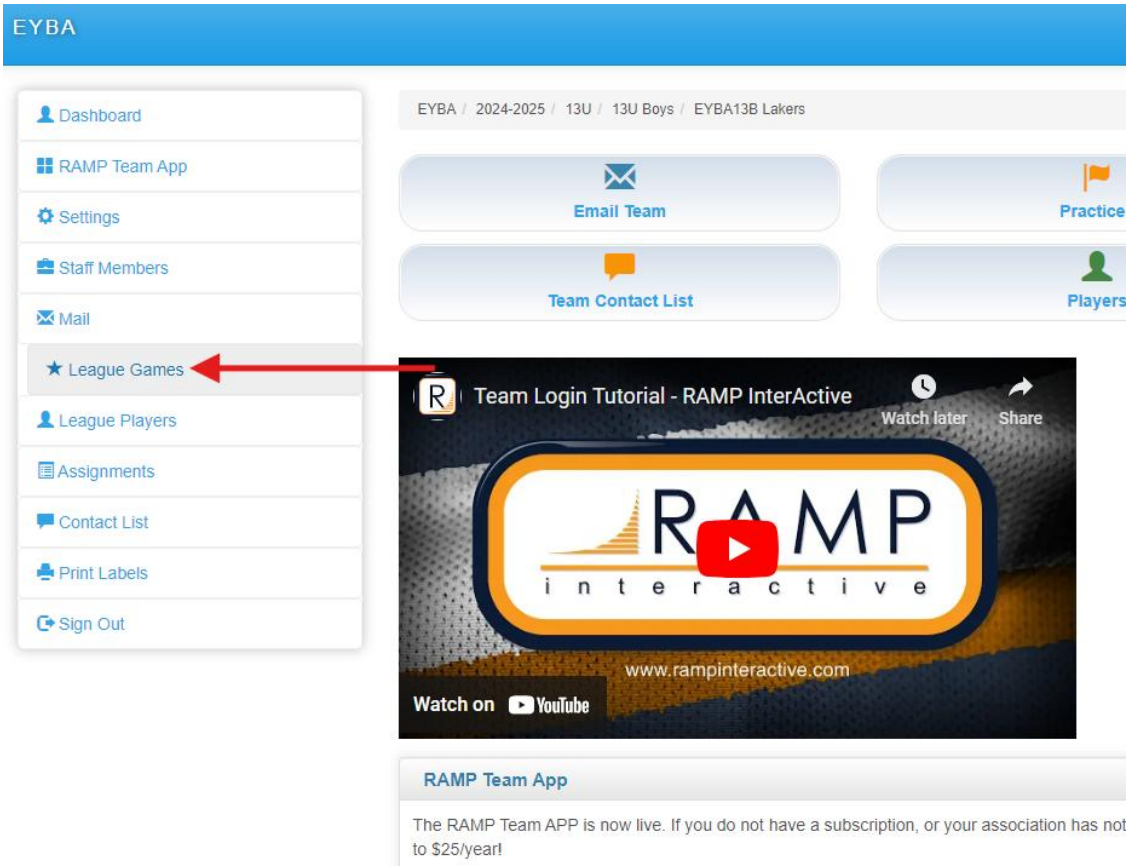

- 8a.1 EYBA league games are scored online and require two tasks to be completed.
- 8a.1.1 1) Score the Game as per 8a.5. Only after the games are entered properly with the standings be adjusted.
- 8a.1.2 2) The Winning Team is required to upload a copy of the scoresheet as they have the White copy.
- 8a.1.3 Failure to report and upload the scoresheet may result in a \$25 fine to the Winning Team's Association and forfeit of the game.**
- 8a.2 It is equally important for both the winner and loser to have the score entered in the system. It is good practise, whether your team won or lost, to log in and enter the score or check that the score has been entered within 48 hours after the game.
- 8a.3 Generally, teams have 48 hours from the start of the game to enter the score (scoring deadline). There are points in the season where EYBA requires the games to be scored in less time (in between rounds when a new schedule is being worked on) and those deadlines will be made clear to zone directors.
- 8a.4 If a game has not been scored by the scoring deadline, then it will be entered as a 0-0 tie.
- 8a.5 Entering a Score**
- 8a.5.1 **At the beginning of a season, the association you are coaching for will send you a login for scoring games.** This will either be for their association website or for the EYBA website, but the process is the same. For the purposes of this article we will be logging scores directly to the EYBA Website.
- 8a.5.2** Head to www.eyba.ca and click the Admin Button on the top left of the site.

8a.5.3 Login using the credentials you were sent

8a.5.4 Click “League Games” on the left side menu

8a.5.5 Find the **Game** you want to score and click the **Green Button (White Pencil)** on the row of that game. If you don't see the game you are looking to score confirm the "Start" date you are searching by.
