Letter of Player Commitment

This letter must be signed and dated by all players and their parents before participating in team games and practices. Parents, please spend some time going over the meaning and importance of these commitments with your child before signing.

I the Player/We the Parents Commit to:

--attending all mandatory practices and games. If unable to attend, I/we will notify the coach and/or team parent ahead of time with an acceptable reason for absence (e.g. sickness/injury, conflict with school event, etc.);

-- arriving on time and being ready to begin practice at the time scheduled by the coach;

--participating in all activities, drills and games to the best of my ability.

--focusing my attention on the tasks being undertaken, listening to instructions, and avoiding distractions or causing disruptions;

--respecting my teammates, my coaches, my opponents, and game officials, and playing by the rules and spirit of the game.

- Players in our divisional program should play at least part of each game, depending on the type of game and stamina of the players.

Consequences of failing to meet the commitment standards listed above:

--Players who miss practices or games without good reason, or without prior notification, or whose participation in games and/or practices do not meet the expectations listed above, may have their playing time reduced. This should be explained to players and parents by the coaches. Continued or frequent failure to meet commitment standards could result in suspension from play, or removal from the team.

Player and parent have read the Letter of Commitment, and agree to abide by the principles outlined therein.
