Covid has caused teams losing players due to vaccination policy. We are not 100% done evaluating every situation but close to it. It is important to note that every situation is different and will need to be treated differently.

Thank you ahead of time for your patience while we rectify this.

We did have player movement and at some levels affiliation is the only option.

I ask that coaches and managers go directly to the other team's coach to get permission to affiliate. You are not to go to the player first. This has caused major issues and needs to stop.
