Updated June 2, 2025 – Chris Drummond – President@VictoriaVipers.ca

- A 3-minute warm up will start as soon as the playing surface has been cleared of the game prior and within the scheduled timeslot. Referees will endeavor to keep the games moving to try and avoid any time over runs.
- There will be a 1-minute break between periods.
- If a game is tied after the 3rd period, then the game will go to an overtime (OT) period.
- There will be a 1-minute intermission before the OT period starts.
- The OT period is a sudden death period. The clock will be set to 10 minutes and is running time.
- If game is still tied after OT, there will be a shootout:
 - Each Head Coach submits a list of 3 shooters to ref prior to the first shooter going.
 - The shootout starts with 3 shooters from each team. The home team shoots first.
 - The team with most goals out of the round of 3 shooters wins.
 - If still tied after the first 3 shooters, then each team will supply a new shooter and alternate 1 and 1 until a winner is decided (with each team getting the same number of chances). If the home team scores, they must wait to see if the visitor scores or not to determine a winner. If both teams score, then play continues down the roster.
 - If teams have different sized rosters then the team with the smaller roster will repeat the last sequence of shooters until they go through the same number of shooters as the team with the bigger roster (i.e. if team A has 12 shooters and team B has 15 shooters, then after running through their 12 shooters, team A will repeat shooters 10-12 until they have matched the 15 shooters of team B).
 - If still tied, teams go back to the top of their lists and alternate 1 and 1.
