## **Goalkeeper Equipment Exemption**

12 February 2020

## Goalkeeper Equipment Exemption

The Goalkeeper Exemption form has been changed using height-based criteria. Equipment manufacturers make equipment based on height and weight specifications. Adjustable straps on equipment ensure that the athlete has a safe and proper fit to their equipment.

Using these criteria, the expectation is that there will be fewer exemptions required as the athlete's equipment is based on their height rather than their age category.

The Equipment Chart (12.10) from the CLA Operations Manual is on the next page which outlines the heights for each piece of equipment and category. How to measure your goaltender's height is on the following page.

Chuck Miller, Chairman Safety and Equipment Committee Canadian Lacrosse Association

#### How to Measure Goaltender Height

- 1. Have tape measure fixed to wall, showing full view from floor to above the athletes' head.
- 2. Goaltender must be in shorts, T-shirt and bare feet.
- 3. Goaltender stands up straight with heels against wall, head level.
- 4. A ruler is used to measure straight from the top of the athletes' head.
- 5. Pictures need to be full view from head to toe of the athlete.
