

Registration Community FAQs

How can I register my child for a Community program?

You can register your child for a Community program at the following link:

https://halifaxcitysoccerclub.demosphere-secure.com/_registration

What are the options when registering for a community program?

Your options for registering at the community program are the following:

1. Team Futsal (Gym) + League games = \$399
2. Team Futsal (Gym) + Additional Turf + League games = \$540

What happened to registering for either A or B programs?

Typically, in the past the A and B division has been separated into essentially players who would like to Practice once a week and play one game (B) or Practice twice a week including a turf session and also play once a week (A). this creates a bit of a divide when we have players in the aid program who only want to practice once a week and players in the B program who really enjoy the game out of recreational level and are looking for more contacts.

This creates situations where we have community programs where during their second session only a third or half the team show up on a consistent basis. this in combination with the fact that in the previous few years the NSSL has been unable to provide both in A and B division we have decided to make the change to allow community players to decide how many contacts they have each week. if you are looking to only have one practice a week it will be a team football session in the gym and then they will play in their league games with their teams. the only difference that the additional training session will be for all players interested in a second session a week that will not necessarily be team-based.

In the event we have enough players for multiple teams within a Community division. We will place them in the most appropriate division offered by the NSSL or balance the teams for games within the NSSL assuming they are in the same division.

I originally only registered for the Team Futsal and League games for my child. They would like to do the additional turf session. Am I able to change my registration?

There will be a cap on the registrations for the additional turf session as we only have so much capacity. As long as the cap is not reached there will be space in the program.
