4.3 Residential Requirements

A player may not establish residency for the principal purpose of playing or practicing hockey.

- a) All players must play within the club, district, or operating area in which they are eligible based on their residency. This determines their primary association.
- To be allowed to register, play, or practice with a Hockey Edmonton team, the player's parent(s) and the player must reside together within the boundaries of Hockey Edmonton¹.
 - Players must register within the boundaries of the club, district, or operating area in which they reside as defined, except as otherwise provided for within this Operating Directive.
 - This residency is based on where the player lives during the current hockey season.
 - Once residency is established and the player registers with their designated club, district, or operating area they are not eligible to register with another club, district, or operating area unless they are transferred in the HCR.
- b) For all minor aged players within Hockey Edmonton whose parents do not reside together, the following will apply in determining residency:
- The player registers in the geographic area in which they registered the year before, unless otherwise stated with the Parent Declaration.
 - Residency will be determined by the parent who has custody of the player. Players must reside with at least one of their parents (refer to Hockey Canada, Section F3) or legal guardian(s). Legal guardianship rules will apply.
 - If parents share custody, the residency will be determined by where the player habitually resides (refer to Hockey Canada, Section F).
 - If there is no habitual residence, Zone Minor Administrator Coordinator will determine the residency of the player, generally determined by where the player attends school.
- c) Any player who is applying to register under legal guardianship must apply to register with the Zone Minor Administrator Coordinator.

¹ Exceptions to this requirement would be those players participating on a Hockey Alberta Male ADM or Female Midget AAA team based in Edmonton, or a player who has applied via the Hockey Alberta Player Movement process and been approved to play in Edmonton.

- The player will complete an application to register form and provide all appropriate documentation (refer to Hockey Canada: Section F4) as well as providing the following information in writing:
 - the name(s) of that person's legal guardian(s),
 - copies of court appointed guardianship documents, and
 - the municipal address at which this player will reside within the boundaries of Hockey Edmonton.
 - The decision to permit a player to play and/or practice with an association team shall be at the discretion of the Zone Minor Administrator Coordinator.
- d) Unless a player's physical residence changes (the player's family moves to a residence in another club, district or operating area), the players' residence as declared when players register to play their last year of Novice will determine the players' resident club, district, or operating area (refer to 4.3 Residential Requirements).
- The sole exception to this is for players in EFHL (Community) Hockey in the Bantam and Midget Division. These players have mobility which gives them the ability to register with any Hockey Edmonton District.
 - Players in EFHL (Community) Hockey in the Bantam and Midget Division who exercise this option to move districts may do so for access to EFHL (Community) Bantam and Midget programs only. Elite Hockey is excluded from this exception.
- e) **All Exceptions** must be approved in writing by the Hockey Edmonton Player Movement Committee.

4.11 Elite

The four Elite Hockey programs must work hand-in-hand with the Community Hockey programs that are part of their respective elite player draw zone to ensure:

- an environment or structure that:
 - fosters and develops interest in competitive hockey as well as community hockey not only in Initiation through Peewee divisions of play but also in Bantam and Midget divisions of play,
 - sees teams formed and placed in the appropriate competitive tiers.
- there are appropriate individual skill development initiatives.
- that appropriate player affiliation opportunities are in place to:
 - continue to develop player's competitive ability, and
 - support the needs of elite teams in their season of play.

The purpose of the player movement and 'if needed' tryout processes allowed for in the Hockey Alberta AA and ADM models is to provide guidance and direction so that player opportunity and movement is done in recognition of the needs of the player and the teams involved. The guiding principle that has unanimous consensus is the agreement at all times for making responsible decisions and everyone will act in the best interest of the athlete's ability to play at an elite level. It further recognizes and supports that each athlete has the right to consider all options.

In Edmonton, while following Alberta Development Model guidelines, every effort will be made to place a player at the next tryout with a city club that is amenable. The player will retain full access to the player movement tryout phase. As long as the player remains in good standing, at no time, will the player be denied access to continue the tryouts with another club.

Note: Players trying out for any Elite team, must be aware of deadlines in other categories of play in case they do not make the Elite Team of preference. The worst situation for a player is to try out for an Elite team(s), not make one, and then not have an appropriate opportunity to try out for an alternative team. - b. Imports must be noted as imports on the HCR Official Team Roster.
- c. Any player residing within the association boundaries and attending a post-secondary educational institution and enrolled in post-secondary classes will not be considered as an import player.

Player assignment will be made within 24 hours of the player’s declaration of interest to the League Governor. This gives a player the opportunity to try out for another team without delay. Imported players must report to the Hockey Edmonton Major Midget AAA, Minor Midget AAA, or Bantam AAA team which they have been assigned. Players failing to report shall be considered released back to their LMHA.

5.0 PLAYER MOVEMENT

5.1 Overage Player Approval

All players must play within the division in which they are eligible unless the Zone Minor Regulations Coordinator otherwise approves. The decision is at the Hockey Alberta representative's discretion. The application for overage player approval must be made in writing prior to November 15.

- a) Follow all criteria and steps as outlined on Hockey Alberta's Application for [Overage Players Application](#).
 - Application forms and proposed guidelines for overage approval are available at Hockey Edmonton office or from the club, district, or operating area registrar.
 - The overage approval procedure is managed by the Minor Administration Coordinator and requires signed consent from the parent, operating area president, club or district president, and Zone Minor Regulations Coordinator. Final approval rests with the Hockey Alberta representative.
 - No overage player can play in any game without approval.
 - If participating in a tournament, the tournament committee must be notified and approve use of the overage player before participation in the tournament.
 - Overage players cannot play in provincial tournaments.
- b) Hockey Edmonton also requires overage players to meet the following criteria to maintain status for the current hockey season:
 - The original circumstances for approval have not changed.
 - The player cannot be in the top twenty-five (25) in league scoring.
 - The player must be in the bottom 1/4 of their team in penalty minutes.
 - Any major penalty incurred will move the player back to their proper age division.
 - Any match penalty will result in suspension for the remainder of the playing season (which can be appealed through the proper appeal process).
 - Overage players are not eligible as affiliates.
- c) All head coaches are responsible for letting the team that they are playing know that they have overage players. The overage player must be clearly marked on every game sheet with (OA) beside the player's name or the coaches could face discipline.
- d) All game sheets must be faxed or emailed (as a pdf file) to the Zone Minor Regulations Coordinator.

- e) Head coaches, club, district, or operating area presidents, and the Hockey Alberta representative will be responsible for overseeing that all the overage criteria is met and maintained.
- Failure to comply with and maintain the above noted conditions will result in immediate removal of the player's overage status.

5.2 Player Acceleration

While player acceleration is not recommended, Hockey Edmonton recognizes that there are unique and exceptional circumstances when it may be in the best interest of the player or the program.

- a) For Atom, Peewee, Bantam and Midget aged players, the following criteria and process will apply:
- Only players in their final year of eligibility in a division will be eligible to apply for acceleration to the next division of play.
 - The receiving club, district or operating area must support the acceleration, before it will be considered.
 - Players wishing to accelerate must apply to the Player Movement Committee.
 - Underage players will participate in the identical evaluation process used by the club, district or operating area for all players in the division.
 - Underage players must be ranked in the top third of the top team in the highest category (tier) of play in the division they are moving to with the exception of those players seeking to roster on a Bantam or Midget team governed by the Hockey Alberta Male ADM or AA Model, in which case the applicable player acceleration rules under those models shall prevail.
 - Permission from the Player Movement Committee must be received prior to the player engaging in any on ice activity.
- b) Applications for acceleration of Initiation (Discovery and Timbits categories) and Novice (Minor and Major) aged players is not permitted for any reason.
- c) Deviation from this policy for the purposes of completing rosters for teams where player numbers are restricted may be considered in extremely rare circumstance. These exceptions must be presented to and approved by the Hockey Edmonton Player Movement Committee.

5.3 Hockey Edmonton Player Movement Committee

The Hockey Edmonton Player Movement Committee (PMC) was established to support a player first focus. Applying to the PMC does not guarantee a position with a team in another association and may also affect a player's opportunity to make a team in their primary association due to timelines and roster cut down dates.

- Players who would like to move to a different club, district, or operating area without changing their resident address, may apply to the Player Movement Committee.
 - The PMC will consider requests to move to the alternative club, district or operating area within the district where the player resides, but not requests to move to a hockey program in a different geographic district.
- Applications can be submitted by registered participants for all models or streams of play:
 - ADM Programs

Hockey Edmonton Player Movement Committee applications for consideration to start their ADM Tryout with a club other than their resident club are received in the month of May.

Should a player not roster with an ADM team the player returns to their resident club for the purposes of AA hockey, or enters into the Community Hockey District program of choice.

Notwithstanding exceptional circumstances that must be explained in a Player Movement Committee application, a 15 year old hockey player looking to roster in Major Midget does not have access to the Player Movement process, they must register with their resident club.
 - AA Programs

Hockey Edmonton Player Movement Committee will consider AA applications to start their ADM Tryout with a club other than their resident club are received in the month of May if the receiving club has a specific/separate AA tryout process/schedule.

Upon being released, a player returning to their resident club after an unsuccessful ADM tryout may submit a Player Movement Committee application to start their AA tryout with a club other than their resident club. Mutual Consents will accelerate the decision but failing to receive same will not prevent the committee from giving timely consideration.
 - Community Hockey

Hockey Edmonton Player Movement Committee applications for consideration to play community hockey with a District or Operating Area team other than offered by their resident association are received in the month of May.
- PMC decisions are for the current playing season only. All players will be returned to their primary association at the end of the season.
- With appropriate documentation, the following may be supported as a rationale to for player movement:
 - Player would like to try out with another team of a higher category.

- There isn't a team in the player's age division in the primary association.
- The team in the player's age division in the primary association is full.
- The primary association and the club, district, or operating area to which the player is applying to move has joined together to form a team.
- Other extenuating circumstances.
 - Travel within Edmonton is not considered to be an extenuating circumstance
 - Allegations are not considered to be an extenuating circumstance; there must be previous documentation of issues, disputes, etc. for handling via the team / association dispute resolution processes.
- Player movement will not be permitted if that movement results in another player not having a place to play within Hockey Edmonton.
- Player movement applications must be submitted in writing to the PMC.
- Applications for player movement will be accepted from May 1 to 31 annually.
- Players who register after this date must register with their primary club, district, or operating area.
- The Zone Minor Administrator Coordinator notifies the player's primary association and the prospective club, district or operating area that a player has submitted an application for player movement.
- The primary association has to respond indicating their consent (or lack of) for the move.
- If consent is granted by both clubs, districts, or operating areas, the player is not required to provide any additional information, and the appropriate club, district, or operating area and their Registrars will be advised and take over the process.
- If consent is not granted by the primary association the next steps in the player movement process are:
- The Zone Minor Administrator Coordinator will generate requests for the following paperwork to be submitted:
 - a. A player statement on why movement is desired and the rationale as to why the request should be supported
 - b. Primary association statement on why they do not support player movement, in this particular instance
 - c. The accepting club, district, or operating area statement of need and consent
- The Zone Minor Administrator Coordinator ensures documentation is complete and submits the request to the PMC.

- The PMC reviews the submissions and approves or denies movement.
- Notification of the decision will be sent out by the Zone Minor Administrator Coordinator to the parents/guardians of the player, and clubs, districts, or operating areas involved.
- All Decisions will be circulated in writing by the Hockey Edmonton PMC.
- If parties are dissatisfied with the decision, they may appeal through the Hockey Edmonton Appeals process.

6.0 AFFILIATION

The following clarifies the intended principles of player affiliation in Hockey Edmonton programs, ensuring all players are eligible and reducing the risk of having ineligible players participating in games as affiliates.

- a) Clubs, districts, and operating areas need a coordinated plan for affiliation that recognizes the best interest of the players and needs of all clubs, districts, or operating areas. The needs of Junior B and Junior C organizations should also be considered.
- b) The purpose of affiliation for EFHL (Community) Hockey is to supplement a team in case of illness, injury, or other forms of absenteeism, excluding suspension as per 6.1.1.a, .
- c) The purpose of affiliation for Elite Hockey is to provide an opportunity for higher division or category teams to dress the maximum number of players allowable for a game in accordance with Hockey Canada Playing Rules.
- d) A player may be affiliated to only one team.
- e) An affiliated player must come from a lower tier, division or category.
- f) Initiation and Novice aged players will NOT be used as affiliate players.
- g) A hockey team may affiliate:
 - up to 19 players from a lower division or category within their club, district, or operating area.
- h) Affiliations must be declared and filed with the respective sub registrar (approved in HCR and added to Official Team Roster) before an affiliated player is allowed to participate in any game with the hockey team to which he is affiliated.
- i) Affiliation will be accepted and endorsed up to and including November 15th of the current hockey season. Affiliation will only be recognized where:
 - when submitted to the Minor Administration Coordinator on the approved affiliation form used by their stream of play:
 - Hockey Alberta AA and ADM programs
 - (a) Hockey Alberta Male and Female Named Player Affiliation Agreement
 - Community Hockey
 - (a) Hockey Edmonton Individual Player Affiliation Agreement Form
 - players are added to teams in HCR by the sub-registrar and identified as 'affiliates,' and
 - affiliates are approved by the Zone Minor Administrator Coordinator.

- j) Any player participating in any game as an affiliated player without approval and not registered in HCR is an ineligible player and team officials are subject to discipline in accordance with Hockey Alberta (Section A Minor Hockey 12).
- k) All teams outside of Hockey Edmonton boundaries interlocking with the EFHL must submit a copy of their HCR Official Team Roster including affiliate players to the Zone Minor Administrator Coordinator by midnight of November 15th.
- l) All affiliations terminate at the end of the current hockey season.

6.1.0 Using Affiliate Players

- a) Before an affiliate player can play or practice for a team, written permission must be obtained from the affiliate player's head coach or designate each and every time the player is needed.
 - If a controversy over a player exists, Hockey Edmonton will not recognize the affiliation until the matter can be resolved internally.
 - A player who has not been granted permission for affiliation will be deemed an ineligible player and subject to Hockey Alberta regulations (refer to Hockey Alberta Section A Minor Hockey 12.6).

Throughout the hockey season appropriate player supervision should be a priority for all Clubs, Districts and Operating Areas (CDOA's) and their teams. As such, Hockey Edmonton endorses the use of the "Two Deep Method" of supervision that is mentioned throughout Hockey Canada HCSP material and Hockey Canada coaching materials. This list describes the "Two Deep Method". It is recommended that these guidelines are followed by all.

8.4.1 Supervisory Responsibilities

Dressing Room

Players should be supervised at all times. A lone personnel member should never be in the dressing room with players at any time, and especially when they are showering or changing. Two (2) adults should be present together; which is called the "Two Deep Method" of supervision. Additional consideration needs to be taken with respect to adherence to the Hockey Edmonton Operating Directive on Co-ed Dressing Rooms.

Injury Treatment

The trainer, coach, first responder or safety person should avoid treating injuries out of sight of others. Use the "Two Deep Method" (two adults) supervision system.

Female Players / Co-Ed Teams

Recommend that when using the "Two-Deep Method" with female players / co-ed teams, there shall be 2 female supervisors with the players where possible. If not possible there may be one (1) male and one (1) female supervisor. Please refer to the Hockey Edmonton Operating Directives regarding co-ed teams.

Road Trips

Ideally, team personnel should not share accommodations with non-family members, regardless of the potential cost savings or other benefits. If sharing a room is unavoidable, be sure that the “Two Deep Method” rule is observed at all times. If only one player and one personnel are alone in the room for a brief period of time, the outer door must be left open.

Physical Contact

Team personnel should avoid touching a player; especially when out of sight of others. Use the “Two Deep Method” (two personnel, or two players) supervision system.

Isolated Spaces

Parents/guardians should never leave their child unsupervised in a facility, nor should they leave their child alone with a single personnel member (use the Two Deep Method supervision system).

Sport and Training Facilities

Participants who are minors should never be left waiting in a facility without the supervision of their parent/guardian or personnel member (use the Two Deep Method).
