

## Inclement Weather

The HGHA does NOT have an inclement weather policy that automatically cancels practices if school district buses are not running. The decision to cancel a practice (or game) is made by each team's Head Coach and will be made as early as possible using the best information they have on hand. Families will be notified by email from your team manager as early as possible regarding any cancellation.

This being said, our families' safety is our top priority and **there is no expectation or pressure for you and your player to attend a practice or game when weather puts travel at risk.** We know that we have families coming from across Muskoka, and we will need to rely on your good judgment when local conditions are poor.

If for any reason the Summit Centre is closed and will affect our practices or games, you will receive an email from your team manager and/or the board letting you know.
