

## SCORE CLOCK INFORMATION

No more than 3 goals per player. Three Goal differential - maximum spread shown on clock - 3 goals.

ALL goals are recorded on the game sheet but if one team is up by more than three goals it is **NOT** shown on the clock. If the team that is down scores a goal it is recorded on the game sheet and on the clock BUT the team that is winning doesn't get another goal on the clock until they score another goal.

### **NO BANKING GOALS**

Example:

Team A - 6 goals recorded on **GAME SHEET**. Team B - 1 goal recorded on **GAME SHEET**.

**Clock would show:** 4 goals for Team A and 1 goal for Team B

Example:

Team A scores - record goal on game sheet but Clock would still show 4 for Team A and 1 for Team B.

Team B Scores - record goal on game sheet and Clock would then show 4 for Team A and 2 for Team B

Team B Scores again - record goal on game sheet and Clock would then show 4 for Team A and 3 for Team B

Team A Scores - record goal on game sheet and Clock would then show 5 for Team A and 3 for Team B

COACHES AND TIME BOX OFFICIALS PLEASE remember that the time box officials **MUST** make sure that the Referees sign the game sheet prior to leaving with the book.
