

Here is how to print out Team Name (Roster) labels

When logged into your Team RAMP webpg, down the left side, select "Print Team Labels".

Make sure that the player numbers have been added in the PLAYERS Tab, so that they print out.

- Ensure that you have enough labels for ALL games. You are required to give a copy of your roster to the HOME team for EACH game sheet.
- Make sure to scratch out any players that do NOT play a game or who are no longer on your team.
- The Top line in this example "1" is the Team Name

- Click the **Save & Download PDF** button
- This will save a sheet with 10 Team Lists on it, to print on the label sheet with 10 labels on it

This PDF can now be printed onto an Avery Label sheet, in the landscape mode

Label Size

- 2" x 4" (Printed Landscape - 4" x 2")
- Avery 08923 (or any generic brand will also work fine)
