

SCOREKEEPER INSTRUCTIONS

1. Please review the tournament rules provided in the time clock.
2. Obtain tablet from tournament director and ensure the teams have updated their rosters and the referees section is completed.
3. Should the wifi disconnect while using the tablet, you can try to update on your phone or wait until you have connected back to wifi. Make sure you have a scratchpad sheet as a back-up to the tablet.
4. Make sure you have 2 MVP awards to hand out at the end of the game (if applicable)
5. At the end of the game, the referee will announce who the MVP winners are for each team and hand out the award. The Referee will then sign off on the tablet, after insuring the game is entered correctly. If there was a glitch with the tablet, it will need to be corrected before the referees can sign off.
6. Game scores will be updated on the OMAHA site immediately following submission.
