NON-PRESCRIPTION MEDICAL CONSENT FORM

It is the policy of Kelowna United Football Club to notify a parent when a child is ill or needs medical attention. On occasion, a child may not be ill enough to go to an emergency centre, however, they may require non-prescription over-the-counter medication such as Advil, Tylenol, Gravol, Pepto-Bismol, etc. to relieve pain and/or discomfort. If we cannot contact the parents and we need to give the child relief from pain and/or discomfort that is not considered an emergency, our procedure would be to give the child the appropriate non-prescription over-the-counter medicine deemed necessary.

I give consent for my child, _____ to receive non-prescription over-the-counter medicine deemed necessary by the Team Staff when I cannot be contacted.

-OR-

I do not give consent for my child, _____ to receive non-prescription over-the-counter medicine deemed necessary by the Team Staff when I cannot be contacted.
