

Kootenay East Youth Soccer Association (KEYSA) Communicable Disease Plan

Please note: this document is subject to change following provincial health and safety requirements.

This Club Communicable Disease Plan has been approved by KEYSA on April 12, 2022

Kootenay East Youth Soccer Association Communicable Disease Plan

A communicable disease is an illness caused by an infectious agent or its toxic product that can be transmitted in a workplace from person to person. Examples of communicable diseases that may circulate in a workplace include COVID-19, norovirus, and seasonal influenza. Communicable disease prevention focuses on basic risk reduction principles to reduce the risk of workplace transmission of COVID-19 and other communicable diseases. The fundamental components of communicable disease prevention include both ongoing measures to maintain at all times and additional measures to be implemented as advised by Public Health.

***Kootenay East Youth Soccer Association** is committed to creating a safe working environment for the Board of Directors and Volunteers, Users and participants that reduces the risk of transmitting communicable diseases.*

***Kootenay East Youth Soccer Association** will complete the following:*

- 1. **Kootenay East Youth Soccer Association** will support Board of Directors, Volunteers, users, and participants who may be sick with a communicable disease to avoid participating, and/or volunteering while sick (for example, fever and/or chills, recent onset of coughing, diarrhea);*
- 2. **Kootenay East Youth Soccer Association** will promote hand hygiene by providing the required supplies for hand washing and/or sanitizing stations at our front entrances in New Dawn Place, and in all washrooms. We will use signage to remind all Board Members, Volunteers, Users and Participants to wash their hands regularly, to use appropriate hygiene practices and to cover coughs and sneezes;*
- 3. **Kootenay East Youth Soccer Association** will maintain a clean environment.*
- 4. **Kootenay East Youth Soccer Association** will ensure building ventilation is properly maintained and functioning as designed;*
- 5. **Kootenay East Youth Soccer Association** is prepared to implement additional prevention measures as required by a medical health officer or the provincial health officer to deal with communicable diseases in our club, should those be necessary*
