

2024-2025 U15 Female

Greetings everyone. Welcome to the 2024-2025 U15 Female Hockey season with Lloydminster Minor Hockey. My name is Catlin Schneider and I am the director of your division. My email is female-u15-u18@lloydminsterminorhockey.com

There will be two U15 blazers teams. One will be playing in the U15A Edmonton Female Hockey League and the other will be playing in the U15B East Central Alberta Female Hockey League.

This upcoming weekend is the evaluation weekend. We are running the evaluations for both teams at the same time. If you do not wish to tryout for the 'A' team, please let me know before this weekend. You will still go to the evaluation skates but I will notify the coach to make sure you get assigned to the 'B' team. There is no charge for tryouts. This is a very busy time for LMHA as U11, U13 and U15 evaluations all take place on the same weekend. There will be three ice slots for this group. Saturday will consist of two back to back skates with a flood in between. The first skate will be a skills session followed by a small area games / scrimmage session. Sunday will be the intersquad game. An email will be sent out afterwards with correspondence if your daughter is still with the 'A' team or if they will be playing with the 'B' team for this upcoming season.

On the evening of the 18th the groups will be sent out along with your ice times. Please have a look and ensure your child is on the list. If not, please contact me.

For the upcoming season we still need coaches, managers and helpers. The head coach of the U15A team this season will be Justin Tindall. We are still looking for a coach for the U15B team. Please refer to the Hockey Alberta website for the required coaching certificates. Also, parents are to take their respect in sport through hockey Canada prior to the start of the season. Coaches will be required to provide their background checks.

The start of the season is a stressful time in the LMHA office and not having all the rinks to start the season adds to the stress. The practise schedule will be somewhat random to start until all the rinks are running.

If you have any questions please don't hesitate to contact me. Thanks,

Catlin Schneider
