Welcome to an exciting adventure in Minor Hockey!

Lloydminster Minor Hockey, like so many organizations is growing at a record breaking pace. This year we intend on having 65+ teams participating in the game of hockey. We could not operate if it weren't for the help of our dedicated volunteers. As a team official you are officially in the world of extreme volunteering. You and 325+ other Minor Hockey parents have stepped up to take an active role in your child's Minor Hockey experience.

The contents of this binder, along with our office staff are here to assist you with this task. As is with any organization the larger you get the more accountable we are required to be. We have gathered information on the regulations and procedures required by the 3 governing bodies of hockey. Included in the last section of this manual are some helpful suggestions on how to deal with situations you may encounter during the course of this season.

Thank you for stepping up to help us. Please remember we are here to help develop young citizens. Teaching them the game of hockey is a step in this development.
