**U15 MONASHEE CLASSIC**

## **Welcome All Teams!**

On behalf of Lumby Minor Hockey, we would like to welcome you to the Village of Lumby and THANK YOU for choosing to attend our 2024-2025 U15 Monashee Classic Tournament.

We hope everyone enjoys themselves and help us have a successful tournament by showing good sportsmanship, fair play and respect for your opponents and the officials, and all the parents volunteering to put this event on.

Let's keep the focus on FUN and cheer for all the good plays and goals. At the end of the day, it's not how many goals you have or how many games you have won, it's the memory of how it was done!

**Play hard and have FUN!**

### Ties after Round Robin (OMAHA Tie Breaking Procedure 1.22)

- In the event Teams are tied for a playoff position after a Round Robin series is completed, the following procedure shall be utilized to determine the placing of the tied teams:
  - a) If two (2) teams are tied, the winner of the Round Robin game between those two (2) teams will receive the higher placing. If three (3) or more teams are tied, the team which has accumulated the most points in games against the tied teams will receive the highest placing, the team with the next most points in games against the tied teams will receive the next highest placing, and so on.
  - b) If any teams remain tied after (a) has been applied, then the Team with the most wins in the round robin series (note that this includes all games in the round robin series and is not limited to games between the tied teams only) will receive the higher placing, and so on.
  - c) If any teams remain tied after (a) and (b) have been applied, then the team with the best goal average in games between the tied teams will receive the higher placing, and so on. The goal average of the teams is to be determined by dividing the total number of goals for and against into the total number of goals for, with the Team having the highest percentage will be awarded the higher position.
  - d) If any teams remain tied after (a), (b) and (c) have been applied, then the team with the best goal average in the round robin series (note that this includes all games in the round robin series and is not limited to games between the tied teams only) will receive the higher placing, and so on. The goal average of a team is to be determined by dividing the total number of goals for and against into the total number of goals for, with the Team having the highest percentage will be awarded the higher position. (Example: Goals for 10, goals against 4; percentage is  $10/14 = .714$ ). In determining the goal average the maximum goal differential that may be applied in any single game shall be seven (7).
  - e) If any teams remain tied after (a), (b), (c) and (d) the team that received the least minutes in penalties in the round robin games between the tied teams will receive the higher placing, and so on.
  - f) If teams are still tied after all previous methods have been applied, then the winner of the playoff position will be decided by the toss of a coin.
