- When the length of the game is reduced the referee and assistant referee game fee will be 85% of the approved regular referee game fees (those listed in the attached document).
- When the length of the game is the same as a regular league game the referee and assistant referee game fee will remain the same as the approved regular referee game fees.
- When there is an assistant referee assigned to a tournament game that normally does not have an assistant referee assigned to a league game (normally youth recreational games), the fee in question (either 85% or full fee) will be the one from a comparable category in a similar competition (Example, for U15 recreational, the U15 premier assistant referee fee would be used for the relevant calculation).
