

Equipment Manager Report

2021 - 2022 season

- When I joined the executive in November 2020 in the midst of an extraordinary ringette season, I set a list of priorities of which securing a storage space for the associations equipment was at the top of the list. A 20' shipping container was finally delivered in July, 2021 to a donated space behind the Greely Legion. After a summer of painting, setting up shelving and retro fitting rods to hang jerseys, the unit was up and running for the beginning of our 2021/2022 season!

- Aug, 2021 the executive voted to have Gadar and Play It Again (PIA) as official MDRA merchandisers. Gadar specifically for all merchandise and logo branding and PIA for equipment.
- MDRA purchased 15 new coaching bags with our logo in embroidery stitch on each and also added our logo to 9 goalie bags that weren't branded.
-

- In October, 2021 we traded in old outdated equipment for a new left handed youth goalie stick that a team needed. We also purchased 2 pairs of goalie pads in excellent condition. Thanks to a grant that we applied for and received, we are able to purchase 5 youth Nami/ Keely trappers this June, 2022. Amazing!
-
- The end of year equipment return in early May went smoothly. Only two teams still need to return items. To date everything that went out was returned.
- Lastly, I want to thank all of our members: parents, players, coaches and the board of directors for your patience, understanding and support during these unusual times. COVID has continued to present many challenges but as an association we continue to rise to the occasion and stay the course. [Go Hornets Go!](#) 🐝
