

2024 Lacrosse Season Coaching & Equipment Report

The 2024 Lacrosse season was another successful one for all ages withing the Medicine Hat Sundevils organization. We made many new coaches joining the association along with numerous returning coaches, trainers and managers. We continue to see increased numbers of our coaches being properly certified at the ALA levels. The board has worked hard the last few years to ensure coaching clinics are being offered close too or in Medicine Hat.

Equipment has continued to be one of the larger expenses for the club. We have purged the storage locker of the (no longer useable equipment) we have now moved onto replacing more of the older equipment that is no longer useable or reparable.
