

We ask that your player comes dressed and ready for their ice time, or come ahead and dress in the parking lot. I would advise you to bring a lawn chair if that is the case, it makes it much easier. Players will go in through the front doors and come out the doors on the East side of the arena near the back right after their ice time.

Players can tie their skates inside the arena no more than 10 minutes before their scheduled ice time. Players unable to tie their own skates must have skates on prior to entering the rink as Covid restrictions do not allow for parents to enter the building. Please ensure you bring your own water bottle and that it is clearly marked as there is no sharing of water bottles. We ask that when you come please respect the physical distancing guidelines and space out accordingly. Once players arrive and register they will be given both a black and white jersey with their assigned a number. The jerseys will be kept until the end of the last evaluation session. Once teams have been created, please check the schedule to determine which color of jersey shall be worn for each scrimmage.

If your player is feeling ill at any point in time before you come to the evaluation camp please let me know right away and we would ask that you follow the public health guidelines on assessment and re-evaluate your attendance. We are being very diligent to work within the current public health regulations. We do expect public health officers to observe our evaluations and inspect our processes, so please keep that in mind.

U15

SHA will be evaluating all players. Time trials will be used to divide all players into equal teams to scrimmage amongst each other for the remainder of the weekend. In order to keep our on ice numbers below the regulated 30 people, some players MAY be asked to sit out a scrimmage.

Goalies will be assigned to games, not teams, and goalie assignments will be shared in the schedule. Goalies will be evaluated an equal amount of time even though some goalies may be required to play more minutes. These extra minutes will not be evaluated should this occur.

Evaluation scores from each scrimmage will be averaged out for a final ranking with the time trial scores being used as a tie-breaker if needed. Once the rankings have been received, the Head Coaches and the MJMH Evaluation Committee will meet and finalize the rosters. The top 5F/3D/1G will be locked on to the AA roster and the head coach will be responsible for picking the remainder of their roster from a group of players that the Tier director supplies from the evaluations. AA coaches may carry additional players for one week of ice time to finalize the roster if needed. The top 6F/4D/1G will be locked on to the A roster. And the head coach will be responsible for picking the remainder of their roster from a group of players that the Tier director supplies from the evaluations. Players who are not successful in making one of the tier rosters will be contacted by the U15 division director for their next ice times.

U18

Due to low registration numbers we will not have SHA evaluating the sessions this year. This does not guarantee that everyone registered automatically makes the final roster. The coaches and the MJMH Evaluation Committee will be finalizing the roster and may carry additional players for one week of ice time to finalize the roster if

needed. Players who are not successful in making the roster will be contacted by the U18/U15 director for their next ice times.
