Dear Coach,

Thank you for agreeing to Coach in the Moose Jaw Soccer Association's (MJSA's) recreational programming division. I am very pleased that you are able to join our very much appreciate group of volunteers that continue to help make the association and its programs a success. Your interest and time commitment will continue to help us grow this wonderful game within Moose Jaw. Our goal for the recreational program is to promote fundamental skill development and introduce the basic elements of the game to all. Our hopes are to establish a well rooted foundation that will help and assist these players in future recreational and competitive opportunities they may wish to pursue. Paramount to all of that is our desire to instill a passion in these players for the game of soccer and to make sure THEY HAVE FUN DOING SO!

To aid with your volunteerism and minimize the potential stress and burden of coaching, the MJSA provides an encompassing training curriculum for all of our recreational youth programs. We encourage this curriculum to be followed to ensure consistency amongst our volunteer coaches on what is being delivered to the players. Please note that the curriculum is for sole exclusive use of the MJSA. Further distribution is strictly prohibited without the written consent of the MJSA. We are continually looking to improve our curriculum so please ensure to provide feedback anytime during or after the season on it.

Enclosed with this letter are the following:

  - A 5 minute water break/transition will then occur. Players are to return to their teams and team coaches are to prepare for the next item.
  - Teams will be grouped together in pairs for each session. The team coaches will then lead the teams together through the 2 mini sessions laid out in the curriculum. Each session is to last approximately 10 minutes with a short 2 minute water/rest break in-between.

# CANADIAN SOCCER ASSOCIATIONS'S LONG TERM PLAYER DEVELOPMENT PLAN (LTPD)

As coaches, teachers, administrators and parents, we need to look at the big picture for Canadian soccer. We want to develop "star" players who can play on the big stage, but we also want to encourage recreational players who can benefit from the health aspects of soccer and give back to the game for years to come as coaches, officials, and administrators.

Long-Term Player Development (LTPD) is the Canadian Soccer Association's pathway to success on both fronts. LTPD is a player-centred approach that provides guidelines for correct training, competition, and recovery based on scientific principles of human development and athlete training, combined with the knowledge of expert coaches.

Player-centred means we respect the developmental needs of our players first and foremost. We ensure that our young players have fun while they learn so they want to continue playing. It also means we provide challenging opportunities for special talents so they can develop their abilities and pursue excellence. All of these needs are addressed in the seven stages of

**Close down**: A defensive technique whereby a defender gets as close as possible to an attacker carrying the ball without letting him get by.

**Compress the** field: When defenders push out toward someone who is dribbling the ball, thereby reducing the area in which that player can move without being in an offside position.

**Counter-attack**: An attack launched by a defending team immediately after it regains possession of the ball. A counterattack in soccer is equivalent to a fast break in basketball.

**Cross**: A pass from an attacking player near the sideline to a teammate in the middle or opposite side of the field.

**Dead ball situation**: Any restart of the game, following a stoppage by the referee, when the ball is put back into play by the attacking team. (i.e.: a direct or indirect free kick or a corner kick).

**Direct play**: A tactical style of play in which a team tries to move the ball forward into its opponent's half of the field as soon as possible after regaining possession.

**50/50 ball**: A loose ball contested by a player from each team, usually after an errant pass or a goal kick.

**Half volley**: Taking a shot on net just as the ball bounces off the ground.

**Header:** Use of the head to pass or control the ball, or to take a shot on net.

**Man-to-man**: A type of defensive scheme where each defender is assigned to mark a specific player from the opposing team.

**Marking**: Guarding and defending a player to prevent him from advancing the ball towards the net, making a pass or getting the ball from a teammate.

**Midfield**: The area of the field near the center line; the area patrolled by the midfielders.

**Narrowing the angle**: A goalkeeping technique used to reduce the area of the goal that an attacker could shoot. This lowers the odds that the attacker will score.

**Nil**: British term meaning the score for one side is zero. A score of 1-0 is one-nil in English soccer parlance.

**Nutmeg**: When a player kicks the ball through the legs of a defender instead of carrying it around him, the defender is said to have been "nutmegged."

**Obstruction**: A defending player using his body to prevent an offensive player from playing the ball.

**Offside trap**: The act of the defenders moving forward together in order to place an opponent in an offside position, thereby creating an offside infraction.

**Tracking**: Moving and staying with an opponent who has made a run to another part of the field.

**Trap**: When a player uses his body to slow down and control a moving ball, most often using the chest, thighs or feet.

Volley: Any ball kicked by a player when it is in the air.

**Wall**: A line of defending players pressed together shoulder-to-shoulder to protect their goal against a free kick. The wall makes it more difficult for the opposing player to score by reducing the amount of open goal area to shoot at.

#### **DEFINTIONS ASSOCATED WITH THE FIELD ("PITCH")**

**Goal area**: The rectangular area (20 yards wide by 6 yards deep) in front of each goal from which all goal kicks are taken.

Goal-line: The field boundary running along its width at each end. Also called the end-line.

**Halfway line**: The middle line that divides the field into two equal halves. Also known as the center line.

**Penalty area**: A rectangular area (44 yards wide by 18 yards deep) with its long edge on the goal line; the goalkeeper may use his hands to block or control the ball only within this area. Also known as the 18-yard box.

**Penalty spot**: The small circular spot located 12 yards in front of the center of the goal-line from which all penalty kicks are taken.

**Sideline**: A line that runs the length of the field on each side. The line from which all free throws are taken. Also known as the touchline.

#### **DESCRIPTION OF COMMON SOCCER POSITIONS**

In full sided matches, there are 11 players in a team. They can be arranged in more ways than one. It is the job of the soccer coach to be able to identify correctly each player's range of abilities and play him in the correct positions to be able to gain an advantage over the opposition. So here are the key soccer positions on the field:

#### Goalkeeper

This one doesn't change much. The goalkeeper is last line of defense and is the only one who is allowed to use his hands, to block a shot from going into the goal. The goalkeeper is supposed to stay just in front of the goal and stop all the shots on the goal. Occasionally, when an opposition player beats all the other players of the team, the goalkeeper may also have to make a tackle on the opposition player to stop the goal-ward advance of the opposition player. Some of the best goalkeeper of the world today? Iker Casillas (Spain) and Edwin Van Der Sar (Holland) get my vote.

#### Center-Back/Center-Half/Sweeper

Known by different names, but the role of the center back remains pretty much the same. The center back is, as the name suggests, the center of the defensive line of a team. The job of a center back is to stop all the attacks coming into the penalty area, to mark the opposition strikers in the center, and stop the crosses from wide and the passes through the center from coming into the path of the opposition striker.

The center back is usually a fairly tall, physically well built player with a good sense of timing as to when to tackle. A robust center back can get in the way of the run of the opposition players. Hence the soccer positions on the field of the center-backs are occupied by the tallest and the toughest players. A center back also has to be quick on his toes to track the wily movements of the opposition. Teams in the 70s and 80s often employed a single center back in a 3 man defense-line(then known as the sweeper), but with the game becoming more and more attack minded and the offense players becoming faster and craftier, most teams today play with two center-backs in a 4-man defense line.

#### Fullbacks/Wingbacks

It has been widely accepted for a long time that a team should play with 2 wing-backs, one on the left and one on the right. As the name once again suggests, wingbacks play on the wings in the defense. Their job is to man the wide areas, to cover the players running in from the wings, and to stop the players from crossing the ball into the center. Full backs also often play the role of running forward and crossing the ball into the opposition's penalty area.

To this end, a wingback needs to be fast and needs to be able to dribble the ball fairly well. Wingbacks, like centerbacks need to be strong and to be able to physically outmaneuver the opposition players. Left wingbacks tend to be left-footed so that they can deliver a robust cross. Similarly right wing-backs need to be right-footed.

#### **Defensive Midfielders/Holding Midfielders**

As the soccer midfield is increasingly split into two-lines as opposed to just the one we've had before, the specialized soccer position(s) on the field of the 'holding midfielder' has become fairly prominent. Usually, in the old 4-4-2 system, there used to be one midfielder who'd be put in the defensive role, but with the 4-1-3-2 and the 4-2-3-1 systems becoming more and more popular, the defensive midfielder has become a more and more prominent member of a team. A team may employ one or two players to play as the defensive midfield who's job is to provide a screening line for the defense. So the opposition players need to first get past the defensive midfielders before reaching the center-backs. The defensive midfielder has one of the toughest jobs on the pitch trying to combine and coordinate both the attack and the defense of the team. On one side, the defensive midfielder has to tackle the opposition players and collect all the loose balls on the pitch that sometimes opposition players half-heartedly or unsuccessfully pass, and at the same time, take the ball away and burst forward and spray the ball around to the players in front. The defensive midfielder is the main passer in the team and has to pass the ball to all parts of the pitch. So basically he needs to be tough and strong with both feet. While a defensive midfielder need not be fast, it is always an added advantage.

#### **Attacking Midfielders/Playmaker**

Now the definition of an attacking midfielder can be fairly vague at times. An attacking

midfielder as the name suggests should be any player in the midfielder who runs in at the goal of the opposition team. But in common parlance, an attacking midfielder is often only the player(s) who attack from the center. An attacking midfielder ideally ought to be one of the most creative players on the pitch. He should be aware of where the players of his team are and how he can best pass the ball to a player in a threatening goal-ward position. Which is why the attacking midfielder is known as the playmaker. An attacking midfielder sets up the play and the tone of his team's game. And to this end, the attacking midfielder should be positive and forward-looking. He should be creative, intelligent and as fast as fast can get. He should also be a good dribbler, and be able to take that odd shot on the goal with both legs. He should be able to head the ball as well. Basically, he should be a complete player. An attacking midfielder is one of the most important soccer positions on the field. A good, creative attacking midfielder is the cornerstone of a good football team and its success largely hinges on the quality of the attacking midfielder.

#### Wingers

Since the footballing definition of the attacking midfielder largely restricts him to a very central role, it becomes important to define a winger. A winger is largely an attacking player who attacks the opposition from the side. A winger gets the ball from the wingbacks and starts advancing forward. In the conventional English soccer strategy, you'll see the winger simply crossing the ball to the striker for him to score, but in the Spanish game, you can increasingly see the winger cutting inside into the center of the field, getting into the box and scoring as well.

A winger's most important trait-as is the case with anyone who plays in the midfield position-is his passing ability. Wingers should be able to deliver long passes as well as short passes. Wingers generally may be asked to play way out wide (in a 4 man midfield formation such as the 4-4-2) or a bit more inside, with the wingbacks covering the absolute wide positions (in a three man midfield formation such as the 4-3-3). A winger should be fast and perhaps the best dribbler on the pitch. Wingers should be able to take a good shot on the goal and be able to cross the ball to the strikers well enough. Right-sided wingers need to have an able right foot and left sided wingers, a potent left foot.

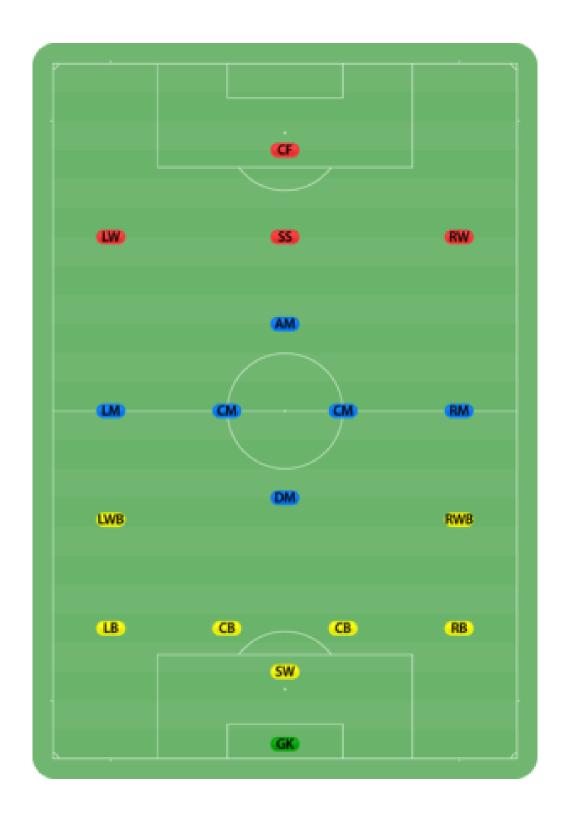

#### Striker and Second Striker

While most people tend to view the one/two men up front as men with very similar roles, I'd like to point out the subtle difference between the two.

In the conventional sense, a striker is the one who is supposed to stay in the box and score the goals with the passes coming in from all sides. In the conventional sense again, a striker should ideally be tall, robust, aware of the players around him, be an above average header of the ball and have good control of the ball to hold it and finish. Of course, conventional sense gets outdated soon in football and hence it becomes essential to redefine the role of the striker. Which explains the decline of the conventional strikers in the world today. A striker today is pretty much a perfectly complete player, who is also very fast and has to run a lot.

But if you do have one of those conventional strikers, whose great ability lies in being able to sit in the box and pick up the good passes and head the ball, then you also ought to have a potent second striker who can create the play around the striker. The second striker works as the perfect foil to, as well as the link between both the striker and the attacking midfielder. A second striker should be prepared to run, dribble and pass in addition to all the above qualities of a striker. He should be a good player with both feet.

Right, so this was all about the soccer positions on the field. Now you can judge the qualities of each player in your team independently, and on the basis of the player's skills, pick the right player for the right position.

### GENERAL GLOSSARY OF TERMS USED WITH RESPECT TO RULES/LAWS OF THE GAME

Official Rules (Laws of the Game) can be found at: <a href="http://www.canadasoccer.com/fifa-laws-of-the-game-s15089">http://www.canadasoccer.com/fifa-laws-of-the-game-s15089</a>.

Rules specific to MJSA programming can be found on our website: www.mjsa.ca

The following are general definitions associated with Laws of the Game

**Play the advantage**: A judgment made by the official to allow play to continue rather than stopping play to call a foul. The official makes this decision when he thinks the foul did not put the offended team at a disadvantage, or if the foul, should it have been called, would take away a scoring chance for the offended team.

**Corner kick**: A restart of the game where the ball is kicked from the corner arc into the middle of the penalty area in an attempt to create a scoring chance. Awarded to an attacking team when the ball crosses the defending team's goal-line after being last touched by the defending team.

**Direct free kick**: A kick awarded to a player after being fouled by the opposition. The player kicks a stationary ball while opposing players are forced to stand 10 yards away from him. A goal can be scored directly from this kick without the ball touching another player.

**Extra time**: If the score is tied after 90 minutes of regulation, the teams must then play two 15 minutes halves to decide the game. Sort of like overtime in hockey, expect the extra time periods are not sudden death; if one team scores a goal, they must still play both 15 minutes halves.

**Foul**: A violation of the rules - including kicking, pushing, shoving, tripping and dangerous or aggressive play - for which an official awards a free kick.

**Goal kick**: A type of restart in which the ball is kicked from inside the goal area away from the goal. Awarded to the defending team when a ball that crossed its goal-line was last touched by a player on the attacking team.

**Handball**: A foul where a player touches the ball with his hand or arm; depending on where the offence take place, the opposing team is awarded either a penalty kick or a direct free kick.

**Indirect free kick**: A kick awarded to a player for a less-serious foul committed by the opposition. The player kicks a stationary ball to a teammate while opposing players are forced to stand 10 yards away from him. A goal can not be scored on an indirect free kick as the ball must

first be touched by another player before going into the net - this is why a player kicks the ball to a teammate on an indirect free kick.

**Injury time**: Time added to the end of each half according to the referee's judgment of time lost due to player injuries or intentional stalling by a team. Also known as "time added on" or "stoppage time."

**Assistant referees**: The two officials who assist the lead referee in making his decisions. They monitor the sidelines and goal-lines to determine when a ball goes out of bounds, when a goal is scored or when players are offside; they use a flag to signal their observations.

**Offside**: A player in an offside position while his team has the ball becomes involved in active play, such as by being the recipient of a pass.

**Offside position**: The situation where an attacking player, on the offensive half of the field, has put himself in a position where there are fewer than two opponents (usually the goalie and one defender) between him and the goal at the exact moment the ball is kicked forward. This positioning does not constitute a foul until he becomes involved in the play. A player is not offside if he is exactly even with one or both of these defensive players.

**Penalty shot**: A kick taken from the penalty spot by a player against the opposing goalie. Awarded for the most severe rule violations and those committed by defenders within their own penalty area. Also known as a penalty kick.

**Red card**: A red card that a referee holds up to signal a player's expulsion from the game; the player's team must then play the rest of the game shorthanded. Presented for violent behavior or multiple infractions (two yellow cards = one red card).

**Referee**: The head referee in charge of officiating the game.

**Shootout**: A tie-breaking device that pits one player against the goalkeeper in penalty kicks. The winner is determined after a best-of-five series of shots alternating with each team. If tied after five, the contest continues with different players until one team scores and the other team doesn't. Used after the teams played two 15-minute halves of overtime with the game still tied.

**Substitution**: Replacement of one player on the field with another player not on the field.

**Throw-in**: A type of restart where a player throws the ball from behind his head with two hands while standing with both feet on the ground behind a sideline. Taken by a player opposite the team that last touched the ball before it went over the sideline.

**Yellow card**: A yellow card that a referee holds up to warn a player for dangerous or unsportsmanlike behavior; also known as a caution. Two yellow cards in one game earns a player an automatic red card, signaling his expulsion.

#### MJSA Outdoor Season Rules – U8

#### Rule# 1: The Field of Play

Games will be played on a mini-soccer field.

#### Rule# 2: The Ball

A #3 soccer ball.

#### **Rule# 3: The Number of Players**

Each team is allowed four players on the field at one time. There are **NO** goalkeepers. Players may defend their goal areas but may not use their hands or arms. There is unlimited substitution ("on the fly", or at any stoppage in play.) Coaches are encouraged to make **frequent** shift changes.

#### **Rule# 4: Players Equipment**

All players must wear shinguards. Players must not wear anything that is dangerous to themselves or to other players. No jewelry with the exception of medic alert bracelets or chains.

#### Rule# 5: Referees

Team coaches will referee the games.

#### **Rule# 6: Duration of the Game**

The game consists of 2 twenty-minute halves. There is a five-minute half-time break. **Each team will have a twenty minute training session prior to the start of each game.** Therefore a start time scheduled for 6:15 PM means the game will kick off at 6:35 PM. The coach is the official timekeeper unless he delegates this task to a sideline parent. The clock is not stopped for routine out-of-bounds, fouls, goals, substitutions, etc. The clock should be stopped, however, for any serious injury or other potentially long delay (such as a "water break" on a hot day.)

#### **Rule# 7: Start of Play**

At the start of each half and after each goal there will be a kickoff at centre field. To start the first half the home team will kickoff and the visiting team will choose ends. Teams should switch ends at half-time. The visiting team kicks off the second half. The team scored upon kicks off after a goal is scored. A kickoff is just like a free kick (see rule# 12.) In addition to all the free kick rules, each team must be in their own defensive half of the field until the ball is kicked. Also the kickoff must go forwards.

If the game must be stopped for an injury (or for some other reason not covered elsewhere in these rules), the restart is a dropball. The coach drops the ball between two opponents. Neither opponent may kick the ball until it touches the ground first.

#### **Rule# 8: Ball In and Out of Play**

The ball is out of play when the whole ball has crossed the whole endline or sideline, on the ground or in the air. Or when the coach has stopped play for any reason. The ball is in play at all other times including when it rebounds from a goalpost, crossbar or the coach.

#### Rule# 9: Method of Scoring

A goal is scored when the whole of the ball has passed over the whole endline between the goalposts and under the crossbar.

#### Rule#10: Offsides and Penalty Kicks

There are no off-sides or penalty kicks.

#### Rule# 11: Fouls

A free kick is awarded to the opposing team if a player kicks, trips, holds or pushes an opponent, plays in a dangerous manner or deliberately uses the hands or arms to play the ball.

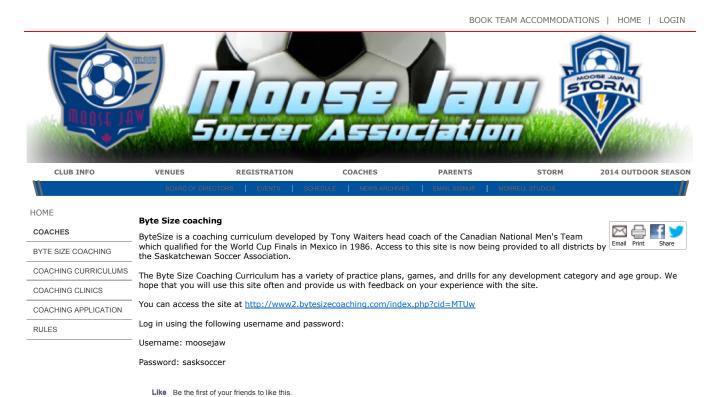

#### Rule# 12: Free Kicks

All free kicks are indirect kicks (meaning: a goal can **not** be scored until the ball first contacts some other player on either team.) Free kicks are taken from the place where the infraction occurred. No free kick should be taken closer than 6 metres to either goal. On all free kicks the opponents of the team taking the kick must be at least 3 metres from the ball until it is kicked (often referred to as "the wall".) The teammates of the player taking the kick may position themselves wherever they wish. The player taking the free kick may not contact the ball again until it contacts some other player from either team. If he does, the opponents receive a free kick.

#### Rule# 13: Kick-ins

There are **no** throw-ins, goal kicks or corner kicks. Instead they've all been replaced by a kick-in. It's just a free kick (see rule# 12) taken at the point where the ball went out-of-bounds, by any player on the team opposite the team last contacting the ball before it went out. All the free kick rules apply.

When the ball goes over the end line it is considered a goal kick.

#### Focus – Physical Literacy Activity Name: Warm up/Coordination/Ball Familiarity

#### Organization:

Mark a 15 x 15 m square. The size may vary according to numbers. Players form pairs and find some space inside the square with one ball between two. One player in each pair starts with the ball, while the other rests. Players trade places on the coach's command. The activity begins with the first player in each pair moving the soccer ball around the playing area using his/her feet and reacting to the coach's commands:

- 1. Guide the ball with your feet as you weave in and out of the resting players.
- 2. As above but on the coach's signal run to the nearest cone and take the ball in a circle around it using the inside of your foot. Keep alternating from right foot to left foot.
- 3. "change", players stop the ball, leave it and quickly go and get another's ball and continue dribbling around the area.
- 4. "legs", players try to pass the ball through the legs of as many resting partners as they can before the coach says stop (Coach ask all resting players to stand with their feet apart).

#### MINI SESSION #2

#### Focus – Ball Familiarity Activity Name – Dribbling to shoot

#### Organization:

Divide players into two teams. Players dribble through the cones mad when they get to the manikin/cone, players take a touch with the outside of the foot and strike at the empty goal. Players retrieve their ball and the next player goes. Players are encouraged to use left and right foot to strike at goal. Player encourage d to use different types of finishing i.e., laces, side of foot. Coach can keep score on success of each team.

At which time both groups return to their place behind the goal line and the coach calls another group to play. If the ball goes out of play the game can be restarted with a "kick-in" or the coach may serve in a new ball. Progressions could involve assigning 2 nets to each team to defend and 2 to attack.
