

April 25, 2020

To all NAI member associations,

Recently, we were notified by Hockey Edmonton that 3 of our associations were denied in their applications to join the EFHL for the 202/21 hockey season. Although we understand their great disappointment from this decision, we are truly happy that these valued members will be joining us for the upcoming season.

Therefore, in order for us to move forward and become a better league for all of our members, we will be striking a sub-committee that will look at how we can better serve our members through tiering and travel issues that we all know are at the forefront of your concerns. We will have 2 of our Executives take the lead on this initiative, and we will invite approximately 4 of our member associations to provide one of their Board members or NAI reps to be a part of this group. The mandate for this committee will be to come up with a proposal that will make travel within our league easier and more equitable for all of our members, and bring that back to all of you at the AGM.

If there is someone within your association that has a strong desire to work with this group for the betterment of the league, please submit their name and contact information to me by May 4, 2020.

Thank-you,

Randy Mak

NAI President
