

## **Newmarket District Ringette Association(“NDRA”) Player Borrowing Policy**

### **Purpose**

To ensure no team is left in a situation where they are without their regular rostered players due to a player being borrowed by another ringette team.

### **Application**

This policy applies to a player who is borrowed by another ringette team.

This policy does not apply to a player who may be enrolled in another sports team outside of ringette.

### **Policy and Procedure**

If another ringette team wishes to borrow an NDRA registered player, the coach of the borrowing team must reach out to the President of the association where the player is being borrowed from in addition to the coach of the lending team. If there is a conflict of interest with the President, the Vice President will take over facilitating the request.

A request to borrow a player should only be approved for games where the borrowed player would not miss a game of their own. If there is a conflict for the player being borrowed the request will be denied.

It is up to all parties to review schedules and ensure there are no conflicts before any approval will be issued.
