

## Newmarket Ringette Serious Injury Policy

A Participant who has been removed from participation due to a Serious Injury should not return to participation until the Participant, or the Participant's parent or guardian if the Participant is younger than 18 years old, has sought medical advice (as deemed appropriate by the Participant or the Participant's parent or guardian) and has sufficiently recovered from the Serious Injury. NDRA takes no responsibility for determining when or if a Participant may return to participation following a Serious Injury. A coach will not allow a player to play who is visibly injured. Newmarket Ringette follows all Ringette Ontario Concussion Protocols.
